Jennifer Vogt, 2013-02-22 Examination Thesis from the year 2012 in the subject American Studies Miscellaneous grade 2.0 Saarland University course American Studies Culture and Applied Geography language English abstract The vampire is one of the oldest and most powerful archetypes in modern media Over the course of the last two centuries the vampire has become an instrument of fiction and its myth has been retold extended and reinvented through literature film and television Over time stories concerned with vampires have gradually increased in popularity reaching a climax in contemporary popular culture with the infiltration of the genre of romantic teenage drama There have been endless representations of vampires in fiction and this precludes a single definition However vampires are associated with several long standing traditional and stereotypical characteristics Contemporary writers and film makers have in particular attributed new and sometimes unique characteristics and rules which apply specifically to their own vampires Vampires have gone through a process of change and their varying images have evolved throughout history and culture This thesis undertakes an analysis of the image of vampires in contemporary fiction with particular reference to the first three seasons of the TV series *The Vampire Diaries* Through an investigation of how the image of vampires has evolved and changed in the course of the 20th century I will show that the contemporary vampire is not merely the embodiment of demonic evil but rather a supernatural and complex creature that is closely related to the human species and combines both good and evil characteristics In the second chapter I will address the development of fictional vampires focussing mainly on the image of vampires in contemporary popular culture and their differing types and personalities I will then present background information concerning the plot and main characters of *The Vampire Diaries* in the third chapter to facilitate the understanding of my subsequent analysis The fourth chapter constitutes the greater part of my thesis and considers the representation of vampires in the TV series *The Vampire Diaries* Various good and evil aspects of vampires will be investigated to build an integral whole of their image in the TV series I will initially deal with the origins of vampires followed by their physical and psychological traits their weaknesses as well as their powers their interaction with human beings their integration into society and their relationship with humans and other vampires

**Inventing the Addict** Susan Marjorie Zieger, 2008 Reconstructs the literary and cultural history of addiction from the nineteenth to the twentieth century

**Underground U.S.A.** Xavier Mendik, Steven Jay Schneider, 2002 Whether defined by the carnivalesque excesses art house erotica or narrative experimentations underground cinema has achieved an important position within American film culture Often defined as cult exploitation alternative or independent the American underground retains separate strategies of production and exhibition from the cinematic mainstream while its sexual and cinematic representations differ from the traditionally conservative structures of the Hollywood system Underground U S A Filmmaking Beyond the Hollywood Canon offers a fascinating overview of this area of maverick movie making by considering the links between the experimental and exploitation traditions of the American underground The volume brings together leading film theorists critics exhibitors and film makers who take as their focus those directors films and genres typically dismissed belittled or ignored by established film culture The contributors thus consider the stylistic generic and representational strategies that have emerged in the alternative American film scene from the 1940s to the present

**Cultures of Darkness** Bryan D. Palmer, 2000-11 Constructing a rich tapestry of example and experience spanning eight centuries Palmer's fascinating account details lives of exclusion and challenge as the night travels of the transgressors clash repeatedly with the powerful conventions of their times Nights of liberation and exhilarating desire are at the heart of this study but so too are the dangers cloaked in darkness Palmer reveals those hidden spaces where darkness concealed acts of brutalizing terror or alternately provided refuge solace or freedom Using the night as metaphor and unifying theme Palmer takes an unflinching look at those dissident or oppositional cultures and movements and shows how they were fueled and shaped by the rise and transformation of capitalism Book Jacket

Vampires Angela Cybulski, 2003 The figure of the vampire has existed within the history of many cultures for thousands of years While the true nature of the vampire is shrouded in mystery its image is also prey to the often inconsistent or inaccurate stereotypes found in literature and film This text presents a collection of writings that attempt to define the main characteristics of the vampire and to explore whether or not vampires truly exist among us

**Print** ,1991      Sophia Linguistica ,2001      *Fins de Siècle/New Beginnings* Ib Johansen,2000 The turn of the 20th to the 21st century provides an excellent vista for a look into language especially the English language literature cultures economics and European studies Several essays deal specifically with issues of the 1990s but others provide a contrast by looking into issues of the 1890s and one looks at 1000 AD This is an excellent book for an educated overview of what we can expect in the new century Contributors debate the significance of the ends and beginnings of centuries and millennia and touch on the controversy over when these actually occur the end of the 99 year or the end of the 00 year As an example of its wide ranging focus literary interpretations of the millennium are analysed from the standpoint of social sciences and vice versa The contributors were chosen not only for the quality of their individual work but for their capacity to offer unexpected new perspectives on a topical and much debated theme      *Televised Morality* Gregory Stevenson,2003 The increasing frequency of moralist critiques of television shows is an acknowledgment of television s growing role in the shaping of a culture s moral values Yet many moralist critiques misconstrue the full moral message of a show due to a restrictive focus on sex violence and profanity *Televised Morality* explores the nature of moral discourse on television by using *Buffy the Vampire Slayer* as a case study *Buffy the Vampire Slayer* has simultaneously been heralded as one of the most morally sophisticated shows on television and one of the most morally corrupt The program offers a fascinating look into the divergent issues involved in the moral evaluation of television today Stevenson argues that analysis of this show s moral vision its methods of moral reasoning and its narrative function reveal the complexity of moral discourse on television and provides a good model for the moral critique of other television shows      Australasian Victorian Studies Journal ,1998      **A Feminist Reader in Early Cinema** Jennifer M.
