Excerpt from *Outlines of Metaphysic Dictated Portions of the Lectures of Hermann Lotze*. The name of Rudolph Hermann Lotze philosopher has already been made familiar to a large number of readers in this country and no little interest has been awakened in his opinions upon various philosophical and religious themes. But thus far the number who have attained any trustworthy knowledge as to what those opinions are has remained exceedingly small. Until very recently all his most important published works have been inaccessible to every one unable to cope with voluminous philosophical German. Within the present year creditable translations of the two large volumes on Logic and Metaphysic which constitute all of his *System of Philosophy* that the author lived to publish have appeared in England and a translation of his *Mikrokosmos* three volumes in German is promised soon to appear.
