and cultural life in countries of origin and settlement. Such transformations impact not only those who are migrating but those who are left behind as well as those who live in the areas where migrants settle. The Handbook of Migration Studies offers a conceptual approach to the study of international migration exploring clearly the many modes of exit, reception and incorporation which involve varied populations in disparate political, economic, social and cultural contexts. Featuring forty-seven essays written by leading international and multidisciplinary scholars, the Routledge International Handbook of Migration Studies offers a contemporary, integrated and comprehensive resource for students and scholars of sociology, politics, human geography, law, history, urban planning, journalism and health care.

**Adoption Beyond Borders** Rebecca Jean Compton, 2016. International adoptions have decreased dramatically in the last decade despite robust evidence of the tremendous benefits that early placement in adoptive families can confer upon children who are not able to remain with birth families. *Adoption Beyond Borders* integrates evidence from a range of disciplines in the social and biological sciences including psychology, neuroscience, evolutionary biology, sociology, anthropology and social work to provide a ringing endorsement of international adoption as a viable child welfare option. The author interweaves narrative accounts of her own adoption journey which involved visiting a Kazakhstani orphanage daily for nearly a year to illustrate the complexities and implications of the research evidence. Topics include the effects of institutionalization on children's developing brains, cognitive abilities and socio-emotional functioning; the challenges of navigating issues of identity when adopting across national, cultural and racial lines; the strong emotional bonds that form even without genetic relatedness; and the methods in which adoptive families can address the special needs of children who experienced early neglect and deprivation, thereby providing a supportive environment in which those children can flourish. Striving to attain a balanced, evidence-based perspective on controversial issues, *Adoption Beyond Borders* argues that international adoption must be maintained and supported as a vital means of promoting international child welfare. *Asian American Psychology* Nita Tewari, Alvin Alvarez, 2009. First Published in 2009, Routledge is an imprint of Taylor & Francis, an informa company. *KoreAm Journal*, 2007. *The Routledge Handbook of Adoption* Gretchen Miller Wrobel, Emily Helder, Elisha Marr, 2020-02-17. *What about the Children!* Damien W. Riggs, 2010 What About the Children takes up the important task of examining the role of hegemonic masculinities in propping up a normative social order in which children are constructed as the property of adults By examining adult child relations in the context of a wide range of family forms and social contexts the book provides some hard answers to questions relating to what exactly are the best interests of children and how they should be determined The book responds by suggesting that there is a pressing need to recognise the capacity of children to voice their own desires and needs and that in failing to recognise this all adults and men in particular only serve to further perpetuate a possessive logic that at least in

part gives rise to the mistreatment or abuse of children Covering topics such as the experiences of foster fathers gay adoptive fathers and sperm donors and exploring phenomena such as books on raising boys and movies about gay parents the book offers important insights as to the operations of hegemony in the lives of a broad range of men Importantly the book moves beyond simply identifying the operations of hegemony in relation to possessive investments in children and goes on to propose a non indifferent TM approach to understanding adult child relations that at its heart examines the operations of power that produce children as supposedly docile subjects and only certain adults as capable of caring for them As a result the book makes a significant contribution to setting an alternative agenda for child protection both within Australia and internationally by asking the question protection for whom TM *Twenty-First Century Color Lines* Andrew

**Digest** ,2007 **Choosing Ethnicity, Negotiating Race** Mia Tuan, Jiannbin Lee Shiao,2011-01-13 Transnational adoption was once a rarity in the United States but Americans have been choosing to adopt children from abroad with increasing frequency since the mid twentieth century Korean adoptees make up the largest share of international adoptions 25 percent of all children adopted from outside the United States but they remain understudied among Asian American groups What kind of identities do adoptees develop as members of American families and in a cultural climate that often views them as foreigners Choosing Ethnicity Negotiating Race is the only study of this unique population to collect in depth interviews with a multigenerational random sample of adult Korean adoptees The book examines how Korean adoptees form their social identities and compares them to native born Asian Americans who are not adopted How do American stereotypes influence the ways Korean adoptees identify themselves Does the need to explore a Korean cultural identity or the absence of this need shift according to life stage or circumstance In Choosing Ethnicity Negotiating Race sixty one adult Korean adoptees representing different genders social classes and communities reflect on early childhood young adulthood their current lives and how they experience others perceptions of them The authors find that most adoptees do not identify themselves strongly in ethnic terms although they will at times identify as Korean or Asian American in order to deflect questions from outsiders about their cultural backgrounds Indeed Korean adoptees are far less likely than their non adopted Asian American peers to explore their ethnic backgrounds by joining ethnic organizations or social networks Adoptees who do not explore their ethnic identity early in life are less likely ever to do so citing such causes as general aversion lack of opportunity or the personal insignificance of race ethnicity and adoption in their lives Nonetheless the choice of many adoptees not to identify as Korean or Asian American does not diminish the salience of racial stereotypes in their lives Korean adoptees must continually navigate society s assumptions about Asian Americans regardless of whether they chose to identify ethnically Choosing Ethnicity Negotiating Race is a crucial examination of this little studied American population and will make informative reading for adoptive families adoption agencies and policymakers The authors demonstrate that while race is a social

construct its influence on daily life is real This book provides an insightful analysis of how potent this influence can be for transnational adoptees and all Americans

The Dance of Identities John D. Palmer,2011 Korean adoptees have a difficult time relating to any of the racial identity models because they are people of color who often grew up in white homes and communities Biracial and nonadopted people of color typically have at least one parent whom they can racially identify with which may also allow them access to certain racialized groups When Korean adoptees attempt to immerse into the Korean community they feel uncomfortable and unwelcome because they are unfamiliar with Korean customs and language The Dance of Identities looks at how Korean adoptees dance or engage with their various identities white Korean Korean adoptee and those in between and beyond and begin the journey toward self discovery and empowerment Throughout the author draws closely on his own experiences and those of thirty eight other Korean adoptees mainly from the U S Chapters are organized according to major themes that emerged from interviews with adoptees Wanting to be like White examines assimilation into a White middle class identity during childhood Although their White identity may be challenged at times for the most part adoptees feel accepted as honorary Whites among their families and friends Opening Pandora s Box discusses the shattering of adoptees early views on race and racism and the problems of being raised colorblind in a race conscious society Engaging and Reflecting is filled with adoptee voices as they discover their racial and transracial identities as young adults During this stage many engage in activities that they believe make more culturally Korean such as joining Korean churches and Korean student associations in college Questioning What I Have Done delves into the issues that arise when Korean adoptees explore their multiple identities and the possible effects on relationships with parents and spouses In Empowering Identities the author explores how adoptees are able to take control of their racial and transracial identities by reaching out to parents prospective parents and adoption agencies and by educating Korean and Korean Americans about their lives The final chapter Linking the Dance of Identities Theory to Life Experiences reiterates for adoptees parents adoption agencies and social justice activists and educators the need for identity journeys and the empowered identities that can result The Dance of Identities is an honest look at the complex nature of race and how we can begin to address race and racism from a fresh perspective It will be well received by not only members of the Korean adoption community and transracial parents but also Asian American scholars educators and social workers
