Over Christendom en Humanisme Josephus Joannes Maria van der VEN,1946 *Christendom en humanisme* J. G. Woelderink, **Dietrich Bonhoeffer's Christian Humanism** Jens Zimmermann,2019-06-13 Jens Zimmermann locates Bonhoeffer within the Christian humanist tradition extending back to patristic theology He begins by explaining Bonhoeffer s own use of the term humanism and Christian humanism and considering how his criticism of liberal Protestant theology prevents him from articulating his own theology rhetorically as a Christian humanism He then provides an in depth portrayal of Bonhoeffer s theological anthropology and establishes that Bonhoeffer s Christology and attendant anthropology closely resemble patristic teaching The volume also considers Bonhoeffer s mature anthropology focusing in particular on the Christian self It introduces the hermeneutic quality of Bonhoeffer s theology as a further important feature of his Christian humanism In contrast to secular and religious fundamentalisms Bonhoeffer offers a hermeneutic understanding of truth as participation in the Christ event that makes interpretation central to human knowing Having established the hermeneutical structure of his theology and his personalist configuration of reality Zimmermann outlines Bonhoeffer s ethics as Christformation Building on the hermeneutic theology and participatory ethics of the previous chapters he then shows how a major part of Bonhoeffer s life and theology namely his dedication to the Bible as God s word is also consistent with his Christian humanism *The Controversy Over Humanism in Post Cultural Revolution Literature* Jocelyn Maloney Nash,1983 *Josephus, Judaism and Christianity* L.H. Humanities Claus Emmeche, David Budtz Pedersen, Frederik Stjernfelt, 2018-06-28 Knowledge production in academia today is burgeoning and increasingly interdisciplinary in nature Research within the humanities is no exception it is distributed across a variety of methodic styles of research and increasingly involves interactions with fields outside the narrow confines of the university As a result the notion of liberal arts and humanities within Western universities is undergoing a transformative process In particular they consider the implications both for the modes of research and for the organisation of the humanities and higher education The volume explores the intra and extra academic engagement of humanities researchers their styles of research and exemplifies their interdisciplinary character Drawing on a number of case studies from the humanities the perceived divide between classical and post academic modes of research can be captured by a republican theory of the humanities Publisher s description
