Nguyen, Elizabeth Hull Barnes, Laura Wentworth, 2023-05-03 Create a pathway to equity by detracking mathematics The
tracked mathematics system has been operating in US schools for decades However research demonstrates negative effects
on subgroups of students by keeping them in a single math track thereby denying them access to rigorous coursework
needed for college and career readiness The journey to change this involves confronting some long standing beliefs and
structures in education When supported with the right structures instructional shifts coalition building and educator training
and support the detracking of mathematics courses can be a primary pathway to equity The ultimate goal is to increase more
students access to and achievement in higher levels of mathematics learning especially for students who are historically
marginalized Based on the stories and lessons learned from the San Francisco Unified School District educators who have
talked the talk and walked the walk this book provides a model for all those involved in taking on detracking efforts from
policymakers and school administrators to math coaches and teachers By sharing stories of real world examples lessons
learned and prompts to provoke discussion about your own context the book walks you through Designing and gaining
support for a policy of detracked math courses Implementing the policy through practical shifts in scheduling curriculum
