*The Holy Bible* John Haley, 2025-01-07 Applying and applying and being denied and denied My hiring chances are slim to none My dad said You have two chances of beating me I m not too sure where he got the saying from None and absolutely none At the age of twelve my dad walked into my brother s old room and newly mine He watched me as I tried to read Genesis of the Bible I looked as that s why it so hot Setting a seventy eight degree thermostat I am proud of you for reading that He smiled and the Vietnam veteran left my room Try to see how awake you are when you finish reading the book I was always known as lazy and was sleeping in class

The Adjunct Underclass Herb Childress, 2019-04-24 Class ends Students pack up and head back to their dorms The professor meanwhile goes to her car to catch a little sleep and then eat a cheeseburger in her lap before driving across the city to a different university to teach another wholly different class All for a paycheck that once prep and grading are factored in barely reaches minimum wage Welcome to the life of the mind in the gig economy Over the past few decades the job of college professor has been utterly transformed for the worse America s colleges and universities were designed to serve students and create knowledge through the teaching research and stability that come with the longevity of tenured faculty but higher education today is dominated by adjuncts In 1975 only thirty percent of faculty held temporary or part time positions By 2011 as universities faced both a decrease in public support and ballooning administrative costs that number topped fifty percent Now some surveys suggest that as many as seventy percent of American professors are working course to course with few benefits little to no security and extremely low pay In *The Adjunct Underclass* Herb Childress draws on his own firsthand experience and that of other adjuncts to tell the story of how higher education reached this sorry state Pinpointing numerous forces within and beyond higher ed that have driven this shift he shows us the damage wrought by contingency not only on the adjunct faculty themselves but also on students the permanent faculty and administration and the nation How can we say that we value higher education when we treat educators like desperate day laborers Measured but passionate rooted in facts but sure to shock *The Adjunct Underclass* reveals the conflicting values strangled resources and competing goals that have fundamentally changed our idea of what college should be This book is a call to arms for anyone who believes that strong colleges are vital to society

*Ubering: the "Rideshare" Story* Rafael Fermoselle, 2019-12-22 There are a few creations that have become products because they became dominant in the market and synonymous with an entire product category Genericized names include Frigidaire which became synonymous with refrigerator Xerox which became synonymous with photocopying and Kleenex which became synonymous with tissues That has been the case with Uber which has become identical with rideshare Despite rapid growth since 2010 Uber has not become profitable is carrying a cumulative loss of over 15 billion as of November 2019 and it is doubtful if it will ever become profitable Despite becoming an eponym a key component of the gig economy and inspiring numerous copycats there is no guarantee that Uber will be able to generate an adequate return on investment and remain in

business The concept has fatal flaws that impair its legal soundness In the end consumers and society determine if any business succeeds or fails Government regulations are largely non partisan and exist to protect society the general welfare and the free enterprise system Uber and the ride share concept may be plowed under by regulations that exist to protect the public interest However regulations sometimes backfire and cause unintended consequences Social Media for Strategic Communication Karen Freberg,2021-07-02 Social Media for Strategic Communication Creative Strategies and Research Based Applications Second Edition teaches students the skills and principles needed to use social media in persuasive communication campaigns This book combines cutting edge research with practical on the ground instruction to prepare students for the real world challenges they ll face in the workplace By focusing on strategic thinking and awareness this book gives students the tools they need to adapt what they learn to new platforms and technologies that may emerge in the future A broad focus on strategic communication from PR advertising and marketing to non profit advocacy gives students a broad base of knowledge that will serve them wherever their careers may lead The Second Edition features new case studies and exercises and increased coverage of diversity and inclusion issues and influencer marketing trends *A Student's Guide to Financial Aid* Thaddeus Stevens State School of Technology (Pa.).
