*Careers in State, County, and City Police Forces* Adam Woog, 2014-01-01 This book is not your ordinary career guidebook on law enforcement. It shares real life stories, cases, and criminal investigations to introduce all the various related jobs. It book covers the various types of jobs and internships that readers can pursue in various Police departments, detailing the education, training, and equipment that candidates would need for the different roles. Readers will learn about state, county, and city law enforcement history, their roles in the community, and types of public service its officers provide.

**People Management**, 2003 *The Metropolitan Police Guide* Sir William Frederick Alphonse Archibald, John Herbert Stobart Greenhalgh, James R. Roberts, 1916 *The Encyclopaedia Britannica*, 1894 [The Best Police in the World](#) Barbara Weinberger, 2016-12-05 Based on interviews with former police officers this book addresses two main issues. Firstly the question of how the police themselves viewed the priorities of the job and what they considered their role to be. This is the first study to consider this question and its implications for the style and content of police work. Secondly it challenges the view of the prewar period as a Golden Age and shows that policing from the 1930s to the 1960s was not as unproblematic as has often been assumed. Police violence and the fabrication of evidence were more prevalent than the cosy image of the British TV series *Dixon of Dock Green* would have us believe. The fact that this image often went unchallenged has much to do with prevailing concepts of masculinity and with the greater moral certitude of the police within a more stable and stratified society.

School Board, 1881 [Chronological Table and Index of the Statutes](#), 1882 **Policing at the top** Caless, Bryn, 2011-09-07 Chief police officers are often shadowy enigmas even to members of their own forces yet they make far reaching strategic command decisions about policing, armed responses, operations against criminals and allocation of resources. What is their background? Where do they come from? How are chief officers selected? What do they think of those who hold them to account? Where do they stand on direct entry at different levels and what do they think of a National Police Force? Bryn Caless has had privileged access to this occupational elite and presents their frank and sometimes controversial views in this ground breaking social study which will fascinate serving officers, students of the police, academic commentators, journalists and social scientists as well as concerned citizens who want to understand those who command our police forces.
