Microeconomic Foundations I Choice And Competitive Markets:

Microeconomic Foundations I David M. Kreps, 2013 Provides a rigorous treatment of some of the basic tools of economic modeling and reasoning along with an assessment of the strengths and weaknesses of these tools Microeconomic Foundations II David M. Kreps, 2023-01-03 A cutting edge introduction to key topics in modern economic theory for first year graduate students in economics and related fields Volume II of *Microeconomic Foundations* introduces models and methods at the center of modern microeconomic theory In this textbook David Kreps a leading economic theorist emphasizes foundational material concentrating on seminal work that provides perspective on how and why the theory developed Because noncooperative game theory is the chief tool of modeling and analyzing microeconomic phenomena the book stresses the applications of game theory to economics And throughout it underscores why theory is most useful when it supports rather than supplants economic intuition Introduces first year graduate students to the models and methods at the core of microeconomic theory today Covers an extensive range of topics including the agency theory market signaling relational contracting bilateral bargaining auctions matching markets and mechanism design Stresses the use and misuse of theory in studying economic phenomena and shows why theory should support not replace economic intuition Includes extensive appendices reviewing the essential concepts of noncooperative game theory with guidance about how it should and shouldn't be used Features free online supplements including chapter outlines and overviews solutions to all the problems in the book and more Lectures In The Microeconomics Of Choice: Foundations, Consumers, And Producers William David Anthony Bryant, 2023-02-17 People pursue their own interests whatever those interests might be Some people have interests that are narrow and selfish while others have interests that are broad and altruistic The idea that people are self interested underpins all of economic analysis and raises two fundamental questions 1 How do people choose the actions they think will further their own interests 2 Can the potentially conflicting interests of different people be made to mesh in some sort of socio economic equilibrium This book is devoted to a detailed study of the first question Its Companion Volume *Economy Wide Microeconomics Equilibrium Optimality Applications and Tests* makes a detailed study of the second question Following some foundational remarks this book studies the Arrow Debreu theory of consumer choice That theory supposes people choose so as to maximize a complete continuous transitive and reflexive binary preference relation over a non empty and compact choice set The book then studies numerous refinements generalizations and extensions of each of these restrictions up to and including recent work on Behavioral theories of choice and choice behaviour when preferences are intransitive incomplete discontinuous Also considered is choice behaviour in environments that are not necessarily compact A study is also made of intertemporal choice and choice under uncertainty The study of Arrow Debreu choice theory and its extensions are presented from the Primal Dual and Revealed Preference points of view Consumers are not the only agents in the economy as Producers are present as well Beginning with a study of the Arrow Debreu idea that producers choose from a

convex production set so as to maximize profit the book considers extensions and generalizations of this framework particularly to non convex environments The study is presented from the Primal and Dual points of view The final chapter in the book provides a link to its Companion Volume The Chapter indicates how the theories of consumer and producer choice studied here help inform answers of the second question posed above Resources are available to instructors who adopt this book More details at www.worldscientific.com/worldscibooks/10.1142/12789_sm

Research Methods in Consumer Law Hans-W. Micklitz, Anne-Lise Sibony, Fabrizio Esposito, Consumer law is worthy of greater academic attention at a time when many new questions arise and old ones need new answers This unique handbook takes the reader on a journey through existing literature research questions and methods It builds on the state of the art to offer a springboard for jumping to the heart of contemporary issues and equips researchers with a starter's kit to weave together rich traditions ranging from socio economics to behavioural analysis

The Black-Scholes-Merton Model as an Idealization of Discrete-time Economies David M. Kreps, 2019-09-19 I began this monograph which at the time was a nascent paper with the objective of understanding how and how well continuous time models of economic phenomena and in particular models that employ Brownian motion relate to near by discrete time models We know by examples that the connections are sometimes not altogether obvious see for instance Fudenberg and Levine 2009 and Sadzik and Stacchetti 2015 So it seemed to me a general theory connecting the two types of models ought to be available
