

# NOTETAKING Strategies for SCIENCE

**Map Features**

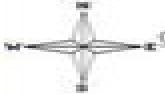

Maps give us a lot of information. Knowing how to read a map can tell us important things.

Brainstorm: What do maps tell us?

**Symbols and Keys:** Shapes and symbols are often used to stand for \_\_\_\_\_ such as mountains, rivers, airports, and cities. A key, or legend, is the list of symbols with an explanation of their meaning.

**Compass:** Many maps include a compass. A compass helps to relate to the \_\_\_\_\_ of where something is located.

**Scale:** A map scale is often given as a ratio to relate the \_\_\_\_\_ on the map with the \_\_\_\_\_ on the ground.

**Measuring Earth**

Distances on earth are measured in degrees from the \_\_\_\_\_ and the \_\_\_\_\_. These gridlines help us locate places on \_\_\_\_\_.
