**Midpoints: Unleashing the Power of Your Planets** Michael Munkasey,2018-05-08 Since the 1st edition of this book was published in 1991 it has been a widely used reference book for many astrologers and their students who have recognized the value and importance in horoscope interpretation of the midpoints the halfway point between any two planets or a planet and a highly significant point such as Midheaven Ascendant or the north or south Node of the Moon The format of this edition is very similar to the first edition but you will find that the author has updated the interpretive text so do read it carefully and if you have not used midpoints routinely before you will soon realize how significant they can be in chart interpretation Following are a few comments from well known astrologers familiar with the first edition and midpoint techniques

**Words on Cassette, 2002** R R Bowker Publishing,2002      **Sailerscopes Career Profiling Using Numerology & Astrology** V. A. Sailer,2016-10-15 This book begins with a description of the SailerScopes system for Numerology Careers are profiled and score sheets are given to match personal numbers to careers Once this process is mastered the same simple concepts are applied to Astrology Patterns in Astrology are described in a way that s easy to observe in both horoscopes or the actual stars themselves The constellation based zodiac of 13 signs is used for this system as opposed to the traditional 12 signs This teaches you how to identify visual placements of objects in the zodiac by observing the night sky It is easy to convert a sidereal 12 sign horoscope to the 13 sign system using a simple conversion table provided in the book The SailerScopes system can be applied to any potential career path of your choice The career paths highlighted in this book focus on off beat and eccentric careers that are not usually featured in self help guides Numbers and planets for a wider

range of careers are given in the appendices All birthdays and names used to generate career profiles are derived from famous people within each career path The SailerScopes system can be used to profile anything not just careers An example of this is the number 88 which was given its own profile in the book This was based on a list of famous people who had the number 88 in their names or birthdays The Numerology section puts heavy emphasis on double digit numbers especially Master numbers SailerScopes also uses a new concept of Divine numbers which are double digit numbers that end in zero Many people have feared Astrology in the past because it required some mathematical expertise to even derive a horoscope Nowadays free online services will produce a chart for you Even so this still leaves you with a spiderweb of crisscrossing lines and geometric angles to contend with The SailerScopes system has simplified the entire process erasing the spiderweb and focusing solely on conjunctions and planetary containments SailerScopes uses the term frames to describe planetary containments which are nothing more than two planets surrounding a third on the wheel These simple concepts in Astrology have proven to be sufficient for constructing powerful profiles Professional Astrologers and Numerologists will find this book to be a refreshing new take on traditional methods It is also valuable for people new to the divination arts as it provides clear instructions on how to gain information from your birthday name or horoscope Unlike other books that give you personality profiles this book will help you determine what careers are best suited for the energies in your life
