This book fills that gap. This book provides companionship through rich stories from schools around the world that have created wellbeing practices that work for their schools. It guides educators through processes that help create individualised, contextualised school wellbeing plans. With chapters addressing why wellbeing, what is whole school change, dynamics, measurement, staff wellbeing, coaching, cultural responsiveness and how to build buy-in, it is the first of its kind. What sets the authors apart from the many school wellbeing practitioners globally is their substantial experience working alongside diverse school groups. While many have experience in one school, few work across a multitude of very different schools and clusters, giving these practising academics a unique appreciation for effective cross-context processes. **Nurturing Resilience and School Success in American Indian and Alaska Native Students** Joyce A.
