Nwu Exam Papers 2014:

Assessing Academic Literacy in a Multilingual Society Albert Weideman,John Read,Theo du Plessis,2020-11-02

South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully. The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience.

African States Abu Bakarr Bah,2025-03-01 Essays on the security challenges faced by African states. The central concern that shapes this edited volume is the nature of the African state. Contributors point to an interesting intersection of domestic and external issues that is framed as a glocalized security situation. Individual chapters shed new insights on conflict drivers through case studies on Sierra Leone Cameroon Mali Nigeria and Somalia as well as broader issues on the nature of African states. Arguments pivot on three issues which show the intersection of the domestic and external forces that render the African state as a glocal problem a the colonial roots of the state b problems of governance and c international and regional security.
