Donnelly, 2023-01-01 This book reconsiders audiovisual culture through a focus on human perception with recourse to ideas derived from recent neuroscience It proceeds from the assumption that rather than simply working on a straightforward cognitive level audiovisual culture also functions more fundamentally on a physiological level directly exploiting precise aspects of human perception Vision and hearing are unified in a merged signal in the brain through being processed in the same areas This is illustrated by the startling McGurk Effect whereby the perception of spoken sound is changed by its accompanying image and counterpart effects which demonstrate that what we see is affected by different sounds accompanying sounds This blending of sound and images into a whole has become a universal aspect of culture not only evident in films and television but also in video games and short Internet clips Indeed this aesthetic formation has become the dominant of this period The McGurk Universe attends to how audiovisual culture engages with and mediates between physiological and psychological levels **Film Restoration** L. Miller, 2019-07-25 Nollywood is often portrayed by the popular press as an unruly industry with mysteriously fast and cheap production and shadowy distribution networks In the first overview of Nigeria's burgeoning video film industry Jade L Miller reveals that this portrayal is over simplistic and often untrue Investigating Nollywood's complete global production and distribution chain Nollywood Central presents a full portrait of the Nollywood industry as both highly organised and strategically structured In doing so it interrogates the position and rise of new cultural industry hubs demonstrating how a creative industry can emerge be sustainable and circulate globally even though it exists outside of formal global networks and government supported infrastructure Deepening understanding of this prolific industry while at the same time contributing to debates surrounding global flows of culture this is a critical resource for students and scholars of Media and Communication Studies Film Studies Television Studies and African Studies **Intellectual Property Law and Policy Volume 11** Hugh Hansen, 2010-11-19 This 16th
