Annual Report University of KwaZulu-Natal. School of Development Studies,2006      Learning To Talk Malcolm  
 McIntosh,Sandra Waddock,Georg Kell,2017-09-29 The UN Global Compact complements other corporate citizenship  
 initiatives by promoting dialogue on the relationship between business and society At the same time it is the only truly global  
 corporate citizenship initiative It is not an auditable standard indeed it is not a standard or a code in the way that these are  
 normally viewed It is a set of principles through which business and the United Nations can work in partnership for global  
 social development For some businesses it is a simplified codification of their existing policies and management practices but  
 for many engagement represents a challenge and an opportunity to raise their game by aligning profitability with the  
 common good As the only genuinely global corporate citizenship initiative the Global Compact draws its moral authority from  
 the UN Secretary General and its moral and political legitimacy from the UN as the only global political body It can be  
 viewed as a series of nested networks involving the Secretary General s Office the ILO UNEP UNHCHR UNDP and UNIDO  
 business NGOs and labour It can variously be described as an international learning network as a social network of people  
 and organizations engaged in a global conversation as a global public policy network and as a multi stakeholder dialogue It is  
 all of these things but more than anything its greatest success has been in providing a convening platform for a growing  
 global conversation about social development among a variety of actors However the Global Compact is viewed it is time to  
 reflect on the first tentative steps of an initiative born in the aftermath of the Cold War in the triumph of global economic  
 liberalism and mass demonstrations against globalisation In its first few years the world has experienced 9 11 and the Iraq  
 War not forgetting the forty or so civil wars that are ongoing at this time Whatever is written about the UN Global Compact  
 or its success will be tentative But there can be some serious reflection on its aims and origins some telling of stories of  
 engagement and discussion on how this initiative has quickly become an important reference point in the dialogue on global  
 and corporate governance      *Alternatives to Economic Globalization* John Cavanagh and Jerry Mander,Mander  
 Jerry,Cavanagh John,2010-06 The definitive document of the anti corporate globalization movement the consensus report of  
 an alliance of leading activists scholars economists researchers and writers Offers a constructive coherent positive  
 alternative to globalization the very thing that the anti corporate globalization movement is always accused of not putting  
 forward The International Forum on Globalization consists of the leaders of over 60 organizations in 25 countries including  
 such prominent organizations as Friends of the Earth the Third World Network the Sierra Club the Institute for Policy  
 Studies Public Citizen Rainforest Action Network and Food First Written by a premier group of 21 thinkers from around the  
 world the second edition of *Alternatives to Economic Globalization* lays out democratic ecologically sound socially just  
 alternatives to corporate globalization more fully specifically and thoughtfully than has ever been done before Focusing on  
 constructive achievable goals the authors present ten governing principles for establishing truly sustainable societies and

describe alternatives to the World Bank the IMF and the WTO that would better serve the needs of the planet They offer detailed proposals for protecting vital goods and services from corporate exploitation limiting corporate privileges and power rebuilding economies to make them more responsive to human needs and more This revised and expanded edition features a new opening chapter on the global balance of power a new section on the media and globalization and a new final chapter on what ordinary citizens can do to fight the injustices of globalization It also includes many new charts sidebars and other updated information     Globalisation, corporate citizenship and industrial policy Organisation for Economic Co-operation and Development,1992
