Katia Chornik

Pdf Militant Song Movement Latin America:

The Militant Song Movement in Latin America Pablo Vila, 2014-05-01 Latin America in the 1960s and 1970s underwent a profound and often violent process of social change. From the Cuban Revolution to the massive guerrilla movements in Argentina, Uruguay, Peru, Colombia, and most of Central America to the democratic socialist experiment of Allende in Chile to the increased popularity of socialist oriented parties in Uruguay or para socialist movements such as the Juventud Peronista in Argentina, the idea of social change was in the air. Although this topic has been explored from a political and social point of view, there is an aspect that has remained fairly unexplored: The cultural and especially musical dimension of this movement so vital in order to comprehend the extent of its emotional appeal has not been fully documented. Without an account of how music was pervasively used in the construction of the emotional components that always accompany political action, any explanation of what occurred in Latin America during that period will be always partial. This book is an initial attempt to overcome this deficit. In this collection of essays we examine the history of the militant song movement in Chile, Uruguay, and Argentina at the peak of its popularity from the mid 1960s to the coup d'états in the mid 1970s, considering their different political stances and musical departments. Throughout the book, the contribution of the most important musicians of the movement, Violeta Parra, Víctor Jara, Patricio Manns, Quilapayún, Inti-Illimani, etc. in Chile; Daniel Viglietti, Alfredo Zitarrosa, Los Olimareños, etc. in Uruguay; Atahualpa Yupanqui, Horacio Guarany, Mercedes Sosa, Marian Faras Gómez, Armando Tejada Gómez, César Isella, Víctor Heredia, Los Trovadores, etc. in Argentina are highlighted, and some of the most important conceptual extended oeuvres of the period called cantatas are analyzed, such as *La Cantata Popular Santa María de Iquique* in the Chilean case and *Montoneros* in the Argentine case. The contributors to the collection deal with the complex relationship that the aesthetic of the movement established between the political content of the lyrics and the musical and performative aspects of the most popular songs of the period.

The Militant Song Movement in Latin America Pablo Vila, 2014-05-01 Latin America in the 1960s and 1970s underwent a profound and often violent process of social change. From the Cuban Revolution to the massive guerrilla movements in Argentina, Uruguay, Peru, Colombia, and most of Central America to the democratic socialist experiment of Allende in Chile to the increased popularity of socialist oriented parties in Uruguay or para socialist movements such as the Juventud Peronista in Argentina, the idea of social change was in the air. Although this topic has been explored from a political and social point of view, there is an aspect that has remained fairly unexplored: The cultural and especially musical dimension of this movement so vital in order to comprehend the extent of its emotional appeal has not been fully documented. Communicating for Social Justice in Health Contexts: Creating Opportunities for Inclusivity Among Marginalized Groups Elizabeth M. Glowacki Vinita Agarwal, Vinita Agarwal,2023-10-19

Chilean New Song and the Question of Culture in the Allende Government Natália Ayo Schmiedecke,2022-01-28 Focusing on the cultural

debate within the left during the Popular Unity government in Chile 1970-73 Chilean New Song and the Question of Culture in the Allende Government situates the discourses and artistic production linked to the Chilean New Song movement in order to demonstrate that the musicians were part of the committed intelligentsia. Thus they actively participated in the discussion and proposal of ways to integrate culture in the revolutionary process playing an important political and cultural role. The analysis is mainly based on the government-friendly press and on records released between 1970 and 1973 verifying how the main trends observed in the cultural debate were expressed in the movement, the extent to which the positions defended by the musicians have been in tune with governmental purposes and if they have in fact influenced the cultural policies debated and pursued by Popular Unity.

A short history of electronic music Johann Merrich, 2021-07-20T00:00:00+02:00 The majority of books covering the birth and development of electroacoustic and electronic music do seem to only give us a partial overview of this peculiar aspect of contemporary cultural production. Essays and monographs provide an androcentric view on the subject rarely mentioning the contribution of inventresses, female composers and theorists. The young age of electronic music together with the traditional privilege granted by historians to the productions of North America and some European countries contribute in obstructing the drafting of a paritary, diagonal and comprehensive view of this topic. This book aims to open a new perspective on electronic music history. If we want to write a new, more inclusive and equitable future, we will have to look at the facts by training a curious gaze stripped of mechanically reiterated certainties. From the birth of the Theremin to the first commercial software intended for the production of computer music from Japan to Russia, passing through Europe and the American Continent, each chapter of this book deals with a specific moment of the history of electronic music narrated through the compositions and experiences of women composers. Addressed to lovers of electronic music, scholars and non-experts, *A Short History of Electronic Music and its Women Protagonists* discloses a new and vibrating universe of untold stories.

The Latin American Songbook in the Twentieth Century Tânia da Costa Garcia, 2019-08-27 *The Latin American Songbook in the Twentieth Century: From Folklore to Militancy* takes an unprecedented comparative analysis approach to the complex relationship between popular music and culture, society and politics in Latin America as it relates to representations of national identity. Tânia da Costa Garcia analyzes archival research in Chile, Brazil and Argentina, which have very similar cultural and political processes. This book is divided into two different parts: the first focuses on how the folk studies movement was legitimized in Chile, Brazil and Argentina, while the second emphasizes the rich history of how the militant song movement in Spanish America was received, transformed and transmitted to Brazil in the second half of the twentieth century. This book will be especially useful to scholars of Latin American studies, music studies, cultural studies and history.

Between Thought and Sound, 2007 Group exhibition exploring the intersection of drawing, thinking and sound through experimental music scores by thirty-one composers who relinquish traditional notation in favor of their own invented graphic systems. p. 3

The Peña Daniel Moriel Ramírez, 1980

Music, Politics, and Social Movements in Latin America Jonathan Ritter, 2023 Hugo Chávez, Alí Primera and Venezuela Hazel Marsh, 2016-11-04 Unlike much of the literature on Venezuela in the Ch vez period this book shifts focus away from top down perspectives to examine how Venezuelan folksinger Al Primera 1942 1985 became intertwined with Venezuelan politics both during his lifetime and posthumously Al s Necessary Songs offered cultural resources that enabled Ch vez to connect with pre existing patterns of grassroots activism in ways that resonated deeply with the poor and marginalised masses Official support for Al s legacy led the songs to be used in new ways in the Ch vez period as Venezuelans actively engaged with them to redefine themselves in relation to the state and to reach new understandings of their place within a changed society This book is essential reading not only for those interested in popular music and politics but for all those seeking to better understand how Ch vez was able to successfully identify himself so profoundly with the Venezuelan masses and they with him

I Sing the Difference Jan Fairley, David Horn, 2002 **Faith and revolution in the Latin American Nueva Canción movement** Giovanna O. Bello, 2012 In the 1960s three mayor events caused profound changes in Latin American society Socio political revolutionary movements reforms within the Catholic Church as a result of The Second Vatican Council and the 1968 Medell n Episcopal Conference and the emergence of Liberation Theology At the same time a new musical movement of protest song known as Nueva Canci n New Song became a powerful cultural and political weapon This study analyzes the religious discourse of the Nueva Canci n particularly in Chile and Nicaragua from the 1960s until the late 1980s At first composers challenged the role of faith and religion specifically Catholicism and openly embraced an anti Church stance Later on Nicaraguan songs and poetry from the 1970s and 80s showed a significant change Musicians and poets fully embraced Liberation Theology principles and reinvented the image of Christ as subaltern and revolutionary one with whom the poor could fully identify Finally after the victory of the Sandinista government in Nicaragua in 1979 Nueva Canci n composers wrote Mass settings incorporating varying degrees of Liberation Theology principles which entered the liturgical space of the Church In conclusion the Nueva Canci n s critique of the social and political stances of the Church caused a conflict between its hierarchy and the nueva canci n composers Nevertheless the relation was much different between the clergy who had adopted Liberation Theology and who worked directly with the oppressed The Nueva Canci n proved at the end to have exerted a powerful and lasting influence upon the relationship between Church and revolution

Protest Music in Latin America Nestor Quiroa, 2026-04-07 Protest Music in Latin America Politics Faith and Social Justice addresses the impact of protest music in Latin America between the late 1950s and the 2000s This was a time of continental fervor for revolutionary change and social transformation This book analyzes the interplay between faith and politics in the music of social protest across the region It places these songs in historical context and offers a window into the religious and cultural life language and thought of social actors in Latin American history This vital resource for teaching students about Latin American cultures and societies offers in depth analysis of twelve songs from different countries An

opening section provides the theoretical framework and historical background for understanding Latin American protest music and its relationship to faith and social change Each of the remaining chapters focuses on one key song The chapters move chronologically from the 1950s to the 2000s in their analysis of the composers and performers historical and political contexts lyrics musical elements religious themes and messages of social change Discussion questions and further resources at the end of each chapter allow readers to engage more deeply with the music The full lyrics of each song are included in the original language with an English translation Broadening the resources available for courses in Latin American music history culture and language while offering new insights for researchers and academics Protest Music in Latin America Politics Faith and Social Justice is an essential resource for scholars of sociology religion world music and Latin American studies

The Latin American Art Song Patricia Caicedo, 2018-12-17 Taking as a thread the concept of national identity this book elucidates the sound transformations that have taken place in the world of the Latin American art song since its appearance in the late nineteenth century to the present day The book focuses in the art songs of Brazil Argentina Cuba Venezuela Bolivia Per and Colombia The book addresses the subject of performance practice of the Latin American song and ends with a proposal for its interpretation In songs spaces of representation and cathartic tools thought language and music have been at the service of some interests fulfilling specific functions in the construction of the nation In them we observe that the construction of identity is a continuous constant and changing process in which different stories are superimposed Seen this way songs are historical texts where social interactions are reflected and the past the present and the future are constantly negotiated The book also addresses the subject of performance practice of the Latin American song and ends with a proposal for its interpretation
