The Creativity Complex Shannon Steen, 2023-07-12 How notions of creativity have evolved to serve the goals of neoliberalism and what we can do about it

God's Law and Order Aaron Griffith, 2020-11-10 Winner of a Christianity Today Book Award An incisive look at how evangelical Christians shaped and were shaped by the American criminal justice system America incarcerates on a massive scale Despite recent reforms the United States locks up large numbers of people disproportionately poor and nonwhite for long periods and offers little opportunity for restoration Aaron Griffith reveals a key component in the origins of American mass incarceration evangelical Christianity Evangelicals in the postwar era made crime concern a major religious issue and found new platforms for shaping public life through punitive politics Religious leaders like Billy Graham and David Wilkerson mobilized fears of lawbreaking and concern for offenders to sharpen appeals for Christian conversion setting the stage for evangelicals who began advocating tough on crime politics in the 1960s Building on religious campaigns for public safety earlier in the twentieth century some preachers and politicians pushed for law and order urging support for harsh sentences and expanded policing Other evangelicals saw crime as a missionary opportunity launching innovative ministries that reshaped the practice of religion in prisons From the 1980s on evangelicals were instrumental in popularizing criminal justice reform making it a central cause in the compassionate conservative movement At every stage in their work evangelicals framed their efforts as colorblind which only masked racial inequality in incarceration and delayed real change Today evangelicals play an ambiguous role in reform pressing for reduced imprisonment while backing law and order politicians God's Law and Order shows that we cannot understand the criminal justice system without accounting for evangelicalism's impact on its historical development

The Color of Money Mehrsa Baradaran, 2017-09-14 Read this book It explains so much about the moment Beautiful heartbreaking work Ta Nehisi Coates A deep accounting of how America got to a point where a median white family has 13 times more wealth than the median black family The Atlantic Extraordinary Baradaran focuses on a part of the American story that's often ignored the way African Americans were locked out of the financial engines that create wealth in America Ezra Klein When the Emancipation Proclamation was signed in 1863 the black community owned less than 1 percent of the total wealth in America More than 150 years later that number has barely budged The Color of Money seeks to explain the stubborn persistence of this racial wealth gap by focusing on the generators of wealth in the black community black banks With the civil rights movement in full swing President Nixon promoted black capitalism a plan to support black banks and minority owned businesses But the catch 22 of black banking is that the very institutions needed to help communities escape the deep poverty caused by discrimination and segregation inevitably became victims of that same poverty In this timely and eye opening account Baradaran challenges the long standing belief that black communities could ever really hope to accumulate wealth in a segregated economy Black capitalism has not improved the economic lives of black people and Baradaran deftly explains the
