Annual Report on English and American Studies ,2004 **Virtual Diaspora, Postcolonial Literature and Feminism** Ashmita Khasnabish,2022-12-16 This book analyses the resolution of the psychic problem of diasporic existence from a postcolonial feminist perspective by inscribing and defining the meaning of virtual diaspora through the lens of the East India and the West It explores the situation that arises when one leaves one s country and becomes an emigrant immigrant which often causes pain both in the departure from one s motherland and in the adaptation to a new environment The book employs the theory of Deleuze and Guattari and explores the interstices of real and virtual diaspora and the aftermath of diaspora as a mental journey Adding a new interpretation of transcendence taken from the Indian perspective the book examines the Deleuze s theory of immanence and transcendence and the two major concepts of becoming and real virtual The book also examines the works of Helene Cixous J M Coetzee Jhumpa Lahiri Kunal Basu and Tagore in light of the concept of virtual diaspora and from a postcolonial feminist angle It does so by raising the following questions When one has emigrated to a

different country can one conceive of that existence as real or virtual or both Do emigrants or diasporic individuals live a life of both real and virtual diaspora This comes from the idea that both real and virtual diaspora under different paradigms may be related to the power struggle and master slave dialectic that affects all of humanity A valuable addition to the study of postcolonial literature the book will also be of interest to researchers in the fields of diaspora studies postcolonial feminist theory postcolonial literature feminist philosophy interdisciplinary studies and Asian Studies in particular South Asian Studies

addresses the power of images vision and visual aesthetics to regulate cultural visibility and modes of identification in an unevenly structured world The representation of visual practices in the imaginative realm of fiction opens up a zone in which established orders of the sayable and visible may be revised and transformed In 12 chapters the book examines narrative fiction by writers such as Michael Ondaatje Derek Walcott Salman Rushdie David Dabydeen and NoViolet Bulawayo who employ word image relations to explore the historically fraught links between visual practices and the experience of modernity in a transcultural context Against this conceptual background the examination of verbal visual relations will illustrate how Anglophone fiction models alternative modes of re presentation that reflect critically on hegemonic visual regimes and reach out for new more pluralized forms of exchange
