**China's Electric Vehicle Industry** Yingqi Liu,2025-09-01 Innovation and Development of China's New Energy Vehicles Industry provides comprehensive insights into the role of new energy vehicles in facilitating the global energy transition. The book aims to foster an understanding of how these vehicles contribute to the shift towards green energy. Drawing from extensive data collected from over 20 cities, 40 companies, and more than 500 questionnaires, the book offers practical information for policymakers and industry stakeholders. Beyond the technological aspects such as battery technology, electric drive systems, and charging infrastructure, the book also discusses policy support mechanisms, financial subsidies, tax incentives, and regulatory frameworks. It includes international case studies from the USA and UK, aiding readers in grasping the global dynamics and fostering international cooperation. The book is essential for understanding the interplay between new energy vehicles and energy transition, providing actionable insights for industry professionals, researchers, and policymakers. It presents comprehensive insights into the current Chinese approach to the new energy vehicle industry.

Highlights technological innovation as the core driving factor in business model innovation, aligning with the rapidly evolving nature of new energy vehicles and their reliance on technological breakthroughs in battery systems, energy storage, and charging infrastructure. Includes case study comparisons to new energy vehicle industry development in other countries and in global policy development.

[Handbook on Electricity Regulation](#) Jean-Michel Glachant, Paul L. Joskow, Michael

Pollitt, 2025-06-09. With twenty two chapters written by leading international experts, this volume represents the most detailed and comprehensive Handbook on electricity regulation ever published. The volume covers the existing state of best practice regulation in the US, UK, the European Union, and Australia, for both electricity transmission, electricity distribution, and retail electricity.

[Organisational Behaviour and Design](#) Alessandra Ricciardelli, Marco Valeri, 2025-04-21. This book

focuses on conceptual frameworks, debates, tools, and developments in the fields of organizational behaviour and organizational design. It analyses the concepts related to organizational behaviour, such as leadership, organizational climate, and motivation, at one side, and focuses on the general framework for organizational design in detail, in all its components: strategy, environment, processes, people, leadership, information, and knowledge system, etc. At the other side, the analysis of the psychological factors affecting organizational design also drives to think of possible different configurations of the main components of organizational structure and design, that may be a good fit, alignment between behaviour and design. In the Industry 4.0 era, human resources and personal factors are increasingly central and strategic; therefore, it is important to understand how psychological factors affect organizational design. It provides a practical guidance on this area of study for developing and implementing the desired organizational architecture. Hence, it takes a managerial perspective to identify practices and behaviour resulting in meaningful and satisfying organizational experience, vis-à-vis the evolving nature of structures and contexts. The book broadens readers' understanding of the role of organizational behavior and design issues in

organizational performance while focusing on design changes to remedy organization's core problems. Given these premises it will be of interest to scholars and professionals in the field of organizational behaviour, job design and job crafting, strategic management and studies at large who can contribute to organizations evolution towards more harmonious organizational design configurations. **Weekly World News**, 1981-11-03 Rooted in the creative success of over 30 years of supermarket tabloid publishing, the Weekly World News has been the world's only reliable news source since 1979.
