Computer Gaming World, 2004 The Trade Mission Andrew Pyper, 2003-02-18 On the heels of his acclaimed bestselling debut *Lost Girls*, Andrew Pyper brings his darkly musical language, chilling suspense, and psychological complexity to a story of survival in the Amazon jungle. On the delirious eve of the new millennium, Marcus Wallace and Jonathon Bates, two twenty-four-year-old overnight dot-com millionaires, are on a trade mission in Brazil. Their product is *Hypothesis*, a virtual morality machine that promises to help people make the best decisions of their lives. But when the decision is made to take an ecotour up the Rio Negro deep into the Amazon jungle, the *Hypothesis* team members are forced to make choices for themselves—choices that carry fatal consequences. In the dead of night, their boat is boarded by paramilitaries who kill the Brazilian crew and kidnap Wallace and Bates, their two older colleagues, and their enigmatic interpreter, Crossman. Blindfolded and thrown into a pit for a prison they must fight to find the will to survive. But when the increasingly unstable Wallace engineers a violent escape, their own natures emerge as a threat potentially more dangerous than the boundless jungle that surrounds them or the gunmen who relentlessly pursue them. A rare combination of literary skill, contemporary insight, and outstanding storytelling, *The Trade Mission* is an electrifying read that confirms Andrew Pyper's mastery of psychological suspense.

Entrepreneur, 1990 Game Changer Neal Shusterman, 2021-02-09

A timely speculative thought experiment in perspective, privilege, and identity. Kirkus: The conceit behind Shusterman's latest is truly unique. While it exhibits the author's usual storytelling aplomb, it also manages to delve into more serious and timely subject matter such as racism, sexism, and homophobia. Despite these heavy topics, the story still moves at a lively pace and, thanks to a zany sci-fi twist, manages to pack in a few laughs as well. Booklist: All it takes is one hit on the football field, and suddenly Ash's life doesn't look quite the way he remembers it. Impossible, though it seems, he's been hit into another dimension and keeps on bouncing through worlds that are almost but not really his own. The changes start small but they quickly spiral out of control as Ash slides into universes where he has everything he's ever wanted, universes where society is stuck in the past, universes where he finds himself looking at life through entirely different eyes. And if he isn't careful, the world he's learning to see more clearly could blink out of existence. This high-concept novel from the National Book Award-winning and New York Times bestselling author of the Arc of a Scythe series tackles the most urgent themes of our time, making this a must-buy for readers who are starting to ask big questions about their own role in the universe.
