This edited collection of essays covers Olson's diverse non literary interests including his engagement with the music of John Cage and Pierre Boulez his interests in abstract expressionism and his readings of philosopher Alfred North Whitehead. The essays also examine Olson's pedagogy which he developed in the experimental environment at Black Mountain College as well as his six month archeological journey through the Yucatan Peninsula in 1950 to explore the culture of the Maya. This book will therefore be a strong research aid to scholars working in diverse fields music archeology pedagogy philosophy art and psychology as it outlines methods for close inter disciplinary work that can uncover the mechanics of Olson's creative literary processes. Building on the straightforward scholarship of George Butterick whose Guide to the Maximus Poems remains indispensable for readers of Olson's work the essays in this volume will also guide readers through the thick allusions within The Maximus Poems itself. New interest in the wide ranging and non literary nature of Olson's thought in several recent academic works makes this book both timely and necessary. Physics Envy American Poetry and Science in the Cold War and After by Peter Middleton as well as Contemporary Olson edited by David Herd have started the process of uncovering the extent to which Olson's inter disciplinary interests inflected his poetic compositions. Staying Open extends the preliminary investigations of Olson's non literary sources in those volumes by bringing together a community of scholars working across disciplines and within a wide variety of humanistic concerns.
