Well-Being and Education: Current

Indications and Emerging Perspectives Eirini Karakasidou,George Tsitsas ,Michael Galanakis,2024-10-16 School apart from being a place of education and transmission of new knowledge should also be a place of personal development and enhancement of students well being and mental resilience while protecting mental health and preventing teacher burnout The current covid 19 pandemic has made the need for psychological support for students and teachers more urgent than ever The science of positive psychology has offered many tools and methods that are particularly effective in the school environment and in educational contexts in general New tools methods and practices are needed to enhance the well being and psychological resilience of students teachers and parents in a time of challenges such as the current pandemic and inflation that cause stress uncertainty and an increase in psychopathology

Health Promotion in the Universities and

Other Educational Settings Miguel Corbí,Antoni Aguiló,Carmen Gallardo Pino,Mario Del Líbano ,Carlos Emanuel Rodriguez-Díaz,Hiram V. Arroyo Acevedo,2025-09-17 The promotion of health in universities is of great importance as it allows for the encouragement of healthy lifestyles and the prevention of diseases among students teaching staff and administrative personnel The university is a conductive environment for the promotion of healthy habits since firstly it is usually the moment when the students make decisions under their responsibility and secondly it is a place where academic sports and social activities take place so it is also an ideal moment to promote changes that can be transferred to society and the rest of the individual s life Health promotion in universities can cover several areas such as healthy eating physical exercise prevention of addictions emotional and social mental health among others It can also involve the entire university community from students to administrative and teaching staff In the case of students it is essential as it is a period of change and habit formation and the fact that they will be the future decision makers of society

The Physiotherapy Review

,1942 Self help is big business but alas not a scientific business. The estimated 10 billion that is spent each year on self help in the United States is rarely guided by research or monitored by mental health professionals. Instead marketing and metaphysics triumph. The more outrageous the miraculous cure and the revolutionary secret the better the sales. Of the 3 000 plus self help books published each year only a dozen contain controlled research documenting their effectiveness as stand alone self help. Of the 20 000 plus psychological and relationship web sites available on the Internet

Self-Help in Mental Health

T. Mark Harwood,Luciano L'Abate,2009-11-24 Self help is big business but alas not a scientific business. The estimated 10 billion that is spent each year on self help in the United States is rarely guided by research or monitored by mental health professionals. Instead marketing and metaphysics triumph. The more outrageous the miraculous cure and the revolutionary secret the better the sales. Of the 3 000 plus self help books published each year only a dozen contain controlled research documenting their effectiveness as stand alone self help. Of the 20 000 plus psychological and relationship web sites available on the Internet

only a couple hundred meet professional standards for accuracy and balance. Most in fact sell a commercial product. Pity the layperson or for that matter the practitioner trying to navigate the self help morass. We are bombarded with thousands of potential resources and contradictory advice. Should we seek wisdom in a self help book, an online site, a 12 step group, an engaging autobiography, a treatment manual, an inspiring movie or distance writing? Should we just do it or just say no? Work toward change or accept what is? Love your inner child or grow out of your Peter Pan? I become confused and discouraged just contemplating the choices.

The Impact of Psychological Well-Being on University Students Cristina

Torrelles-Nadal, Yun-Chen Chang, 2025-12-15. We are pleased to introduce the collection *Frontiers in Psychology Highlights in Positive Psychology: The Impact of Psychological Well-Being on University Students*. Researching the impact of psychological well-being on university students is of paramount importance. By delving into this topic, we can gain valuable insights into the mental health challenges faced by students, identify effective support strategies, and ultimately enhance their overall well-being. Understanding the factors that influence psychological well-being enables universities to develop targeted interventions, support systems, and counseling programs that address the unique needs of students. This research is essential for promoting student success, improving retention rates, fostering a positive campus environment, and facilitating holistic development. Ultimately, researching the impact of psychological well-being on university students empowers institutions to create a nurturing and inclusive environment that supports students' personal growth, academic achievements, and long-term mental health.

This collection will welcome and showcase a selection of articles about psychological wellbeing, authored by leaders in the field. The work presented here highlights the broad diversity of research performed across the Positive Psychology field and aims to put a spotlight on the main areas of interest. This collection aims to further support *Frontiers* strong community by shining a spotlight on our authors' highly impactful research.
