Language City Ross Perlin, 2024 Half of all 7 000 plus human languages

may disappear over the next century and because many have never been recorded when they're gone it will be forever. Ross Perlin, a linguist and co-director of the Endangered Language Alliance, is racing against time to map little-known languages across the most linguistically diverse city in history: contemporary New York. In *Language City*, Perlin recounts the unique history of immigration that shaped the city and follows six remarkable yet ordinary speakers of endangered languages deep into their communities to learn how they are maintaining and reviving their languages against overwhelming odds. Perlin also dives deep into their languages, taking us on a fascinating tour of unusual grammars, rare sounds, and powerful cultural histories from all around the world. Both remarkable social history and testament to the importance of linguistic diversity, *Language City* is a joyful and illuminating exploration of a city and the world that made it. Researching Language in Superdiverse Urban Contexts Clare Mar-Molinero, 2020-09-22 This book contributes to understanding research approaches for studying multilingualism in the context of contemporary superdiversity in environments that are being dramatically transformed by transnational migration and movement of peoples. It explores language in urban contexts, the city as a site for experimentation and creativity in language practices. This involves considering theoretical frameworks in which to examine these practices, but above all, it focuses on how we do or could do research into these language practices and their users. What methodologies are we using to understand urban linguistic contexts? What do we want to learn? The chapters explore complex and challenging situations, capturing the evolution of new forms of language practice and changing attitudes to language in the city.
