Mi Casa Ngels Navarro:

Angels, Demons and the New World Fernando Cervantes, Andrew Redden, 2013-02-07 When European notions about angels and demons were exported to the New World they underwent remarkable adaptations Angels and demons came to form an integral part of the Spanish American cosmology leading to the emergence of colonial urban and rural landscapes set within a strikingly theological framework Belief in celestial and demonic spirits soon regulated and affected the daily lives of Spanish Indigenous and Mestizo peoples while missionary networks circulated these practices to create a widespread and generally accepted system of belief that flourished in seventeenth century Baroque culture and spirituality This study of angels and demons opens a particularly illuminating window onto intellectual and cultural developments in the centuries that followed the European encounter with America The volume will be of interest to scholars and students of religious studies anthropology of religion history of ideas Latin American colonial history and church history Flight, 1931 *A People's History of Cuba, 1492-Present* Rémy Herrera, 2025-02-25 This book presents a comprehensive history of the political economy of Cuba from 1492 to the present day It chronologically analyses the major economic social and political transformations that have occurred in Cuba and explores the impact on the country's development over the long run The first section analyses the period from 1492 to 1898 from colonial conquest to the war of independence The next two sections cover the history of Cuba's economy and society up to the end of the twentieth century examining in detail US imperialist domination guerrilla warfare 1956 1958 and the Cuban Revolution from 1959 to the fall of the Soviet Union in 1990 1991 The final part analyses Cuba's economy and society in transition up to the present day Written in a comprehensive academic style while maintaining a focus on the perspectives and experience of ordinary citizens throughout the book will be of interest to a wide readership including scholars of economic history political and social history development economics and political economy **The Iberian Peninsula in the Iron Age through Pottery Studies** Michał Krueger, Violeta Moreno Megías, 2022-10-06 Seven papers read at the international conference Interdisciplinary research on pottery from the Iberian Peninsula Poznań 2019 deal with various aspects of Iron Age pottery including technology decoration chemical and mineralogical properties commerce and social use through archaeological science and the presentation of ongoing fieldwork *The Origins, Ideology, and Organization of Basque Nationalism, 1876-1903* Javier Corcuera Atienza, 2006 In this seminal work Javier Corcuera charts the emergence and rise of nationalism within the context of a society experiencing tremendous economic social and political transformation *Spain* Damien Simonis, 2003 Spain is the chill out party guide for every traveller Special sections illuminate flamenco architecture and gastronomic treats along with accommodation options from pretty pensiones to palatial pads and a language guide to Castilian Basque Catalan and Galician Finding Cascipara Susan Verdi Webster, 2024-10-01 An examination of sculpture and authorship in eighteenth century Quito that documents Cascipara as a participant in the innovative artistic production of the city's workshops and its widespread commerce of polychrome

sculptures Who is Caspicara Nothing is known of Caspicara's life and not a single sculpture has been documented as his work Yet traditional histories laud him as a prolific Indigenous sculptor in eighteenth century Quito who created exquisite polychrome figures and became a national artistic icon Drawing on extensive archival historical and object research Susan Verdi Webster peels away layers of historiographical fabrication to reveal what we do and do not know about Caspicara and his work Rather than being a solitary master Caspicara collaborated with other largely Indigenous artists in Quito's protoindustrial workshops manufacturing sculptures now credited to him alone The high quality of Quito sculptures produced by anonymous artists turned the city into a hub of wide ranging commerce in religious icons The art world and post independence Ecuadorians have lionized the one named sculptor Caspicara according to the Western model of the artist genius amplifying the market for works bearing his name and creating a national hero on par with European masters Lost in this process were the artists themselves Webster returns to their world detailing their methods and labor and for the first time documenting a sculpture made by Caspicara
