**American Fiction** Linda M. Hess, 2019-01-24 Exploring representations of queer aging in North American fiction this book illuminates a rich yet previously unheeded intersection within American culture At a time when older LGBTQ persons gradually gain visibility in gerontological studies and in the media this work provides a critical perspective concerned with the ways in which the narratives and images we have at our disposal shape our realities Each chapter shines a spotlight on a significant work of queer fiction beginning with post WWII novels and ending with filmic representations of the 2010s exploring narratives as both reflections and agents of broader cultural negotiations concerning queer sexuality and aging As a result the book not only redresses queer aging s history of invisibility but also reveals narratives of queer aging to be particularly apt in casting new light on the ways in which growing older is perceived and conceptualized in North American culture

**Maybe The Moon** Armistead Maupin, 2012-03-13 Maybe the Moon Armistead Maupin s first novel since ending his bestselling Tales of the City series is the audaciously original chronicle of Cadence Roth Hollywood actress singer iconoclast and former Guinness Book of Records holder as the world s shortest woman All of 31 inches tall Cady is a true survivor in a town where as she says you can die of encouragement Her early starring role as a lovable elf in an immensely popular American film proved a major disappointment since moviegoers never saw the face behind the stifling rubber suit she was required to wear Now after a decade of hollow promises from the Industry she is reduced to performing at birthday parties and Bar Mitzvahs as she waits for the miracle that will finally make her a star In a series of mordantly funny journal entries Maupin tracks his spunky heroine across the saffron hazed wasteland of Los Angeles from her all too infrequent meetings with agents and studio moguls to her regular harrowing encounters with small children large dogs and human

ignorance Then one day a lanky piano player saunters into Cady's life unleashing heady new emotions and she finds herself going for broke shooting the moon with a scheme so harebrained and daring that it just might succeed Her accomplice in the venture is her best friend Jeff a gay waiter who sees Cady's struggle for visibility as a natural extension of his own war against the Hollywood Closet As clear-eyed as it is charming *Maybe the Moon* is a modern parable about the mythology of the movies and the toll it exacts from its participants on both sides of the screen It is a work that speaks to the resilience of the human spirit from a perspective rarely found in literature
