## **Michelangelo And The Popes Ceiling:**

**Michelangelo And The Pope's Ceiling** Ross King,2012-10-31 In 1508 Pope Julius II commissioned Michelangelo to paint the ceiling of the Sistine Chapel The thirty three year old Michelangelo had very little experience of the physically and technically taxing art of fresco and at twelve thousand square feet the ceiling represented one of the largest such projects ever attempted Nevertheless for the next four years he and a hand picked team of assistants laboured over the vast ceiling making thousands of drawings and spending back breaking hours on a scaffold fifty feet above the floor The result was one of the greatest masterpieces of all time This fascinating book tells the story of those four extraordinary years and paints a magnificent picture of day to day life on the Sistine scaffolding and outside in the upheaval of early sixteenth century Rome

There is no available information at this time. Author will provide once available. *Michelangelo* United Library, 2023-02-27. Michelangelo is one of the most famous and renowned artists in history. He was an architect, poet, painter, sculptor, and even a musician. His work on the Sistine Chapel's ceiling is some of the most iconic art in the world. Michelangelo Buonarroti 1475-1564, the great Italian sculptor and painter, was often called the greatest artist of all time due to his accomplishments during the Renaissance era. His work with the papacy included redesigning multiple churches and two grand commissions, including painting the ceiling of the Sistine Chapel for Pope Julius II. Michelangelo wasn't just an artistic genius; he had a flair for verse and wrote hundreds of love sonnets and religious poems, some of which appeared in major publications such as *The New Yorker Magazine*. He also excelled at architecture and designed several buildings, including one of his most celebrated works, St. Peter's Basilica in Rome. Despite all his talents, Michelangelo had a tormented life, as many people around him seemed to take advantage of his kindness and loyalty. Still, he remained unyielding and continued to create masterpieces for centuries to come, a true testament to his creativity and drive. Michelangelo was not only a great artist but also a genius. He had a unique perspective on the world that allowed him to create some of the most beautiful and timeless pieces of art ever conceived.

**Michelangelo** Charles De Tolnay, 1949. Porn Star Mark Lamonic, 2008-11-26. Porn Star is an engrossing portrait of a man that is credited with being the originator of modern pornography. Pietro Aretino 1492-1556, Aretino was the most famous writer of the sixteenth century and considered like his contemporary Niccolò Machiavelli 1469-1527, a literary god in London. In fact, both writers came to symbolize in the minds of Elizabethans everything devilish about the Italian people: devils incarnate, as they were called in Shakespeare's day. Vastly underrated today as a writer, Aretino's time has come, and he is a force to be reckoned with. Playboy, playwright, pornographer, poet, diplomat, shrewd man of affairs, Aretino typified the Renaissance man of action, embodying the mischievous genius of the Italian people. An immensely gifted polymath, writer with an encyclopedic range of knowledge, experience, and interests, Aretino's deadly poison pen aroused violent antagonism as well as an idolatrous awe amongst his peers in his lifetime. He takes the reader on an unforgettable journey through the Italian Renaissance, where we meet many of his illustrious friends, the most colorful people of the period: crazy kings, deviant popes, eccentric artists, beautiful whores, deadly dukes, and con men. Aretino's outrageous life culminates in an explosive climax that leads to the destruction of the holiest city in the world, Rome, or as the great religious reformer Martin Luther called it, Babylon. Along the way, Aretino challenges William Shakespeare's title as the world's greatest writer. *Michelangelo, Selected Scholarship in English: The Sistine Chapel* William E. Wallace, 1995.
