Ten voices emanate from across the globe from Sri Lanka to Africa, Guatemala to Canada and Hong Kong to the United States including M Daniel Carroll Rodas, David A deSilva, Barbara M Leung, Lai J Ayodeji, Adewuya, Grant LeMarquand, Nijay Gupta, Chloe Sun, K K Yeo, Daniel K Darko, Oswaldo Padilla.

**Reading the Bible as a Postexilic Biblical Author** **Read** T. N. Huu-Thien, 2025-01-31 Millions of Christians read the Bible not only to know what happened in ancient biblical times but also to find God's message to them. Consequently the Bible is the best selling book of all time. However, scholars have observed that over the past two hundred years biblical interpretation in the West has traditionally focused mainly on studying what the text meant. For Western biblical scholars, the study of what the Bible means to readers today falls within the realm of theological studies rather than biblical studies. In contrast, Asian biblical interpretation is holistic, studying both what the text meant and what it means. Interestingly, this book demonstrates that long before any modern biblical reading approaches emerged, the Chronicler as demonstrated in the book of Chronicles, read his biblical sources to actualize the messages of those biblical materials in ways relevant to his postexilic audience. The Chronicler's reading is similar to Asian biblical readings. This book proposes a reading approach that synthesizes the strengths of the Chronicler's reading and two modern biblical reading approaches employed by Asians to achieve the dual aim of biblical interpretation and make biblical reading meaningful and applicable to modern readers.

**At the Intersection of Hermeneutics and Homiletics** Yung Suk Kim, 2025-04-18 While hermeneutics involves a comprehensive study of the biblical text whether through historical or literary or reader focused approaches, homiletics is concerned with a selected theme message and on the composition and delivery of sermonic discourse aimed at a particular audience. But the border between hermeneutics and homiletics is blurry because both disciplines require readers to engage the biblical text from their own contexts. This collection deals with the intersection of hermeneutics and homiletics by exploring two revelatory texts, one from the Hebrew Bible and the other from the New Testament, the book of Ruth and Matthew 15:21-28, a Canaanite woman's encounter with Jesus. Both reflect agonizing issues that readers must tackle: migration, family, community identity, agency, race, ethnicity, gender, class, culture, economy, and religion. A diverse group of scholars brings their transgressive perspectives to the above texts. Unfolding new areas of interest, inquiry, and insight, they will transgress authoritative readings of biblical texts, fashion hermeneutic horizons in dialogue with the text, and forge homiletic trajectories toward contemporary audiences. Without limiting interpretation to a box, this volume looks to register bold voices to perennial issues in our day. Homiletic transformation occurs through the relentless, resistant reading of the text and through reimagining our world.

Expanding Approaches to Bible Translation James A. Maxey,2025-05-22 The assertion in this book included within the BPC series is that translation is as fundamental to biblical material as performance both in its history as well as in its research approaches Translation in this sense is more than a transferal of meaning from one linguistic system to another Bible translation highlights innovative connections and conceptions to biblical texts in their promulgation reception and ever changing nature A predominant theory used throughout this book is social semiotic multimodality This communication theory informs an approach to translation that expands beyond words to other semiotic resources Sign Language embodied performance social media theater materiality and many other types of multimodal communications inform translation It is important to understand that the Bible is a translated experience Translation reflects the various ways in which the Bible has been mediated and appropriated throughout history It follows therefore that Bible translation as a global activity has been and continues to be influenced by the political and economic flows of history Race class ethnicity gender sexual orientation and other elements of our social locations directly influence the enterprise and results of Bible translation

*Postcolonial Commentary and the Old Testament* Hemchand Gossai, 2018-11-01 This is the first volume to provide a wide range of postcolonial interpretations of and commentaries upon significant texts in the Hebrew Bible The volume intersects with the work of the key theorists in postcolonial studies such as Fanon Senghor Said and Spivak as well as with scholars such as Sugirtharajah Kwok Pui lan and Segovia who have applied this theory to biblical studies Texts have been chosen specifically for their relevance to postcolonial discourse rather than seeking to cover each biblical document This volume is designed to demonstrate how historical criticism postmodernism and the important concerns of postcolonial readings may be integrated to obtain an informed explanation of the Hebrew Bible and the writings of early Judaism The chapters are written by scholars who represent a spectrum of national indigenous and diasporic contexts Taken together these perspectives and the interpretations they yield represent a continued expansion of the manner in which Old Testament texts are read and interpreted through postcolonial lenses reminding readers that the interpretive trajectories of these texts are almost inexhaustible As such the volume serves as not only an addition to ongoing scholarship on postcolonialism but also as an expansion of the horizon for dialogue

Moore, 2006 In Empire and Apocalypse Stephen Moore offers us the most complete introduction yet to the emergent field of postcolonial biblical criticism It includes an indispensable in depth introduction to postcolonial theory and criticism together

with a detailed survey of postcolonial biblical criticism. Next come three substantial exegetical chapters on the Gospels of Mark and John and the Book of Revelation which together demonstrate how postcolonial studies provide fresh conceptual resources and critical strategies for rethinking early Christianity's complex relations to the Roman Empire. Each of these three texts to different degrees Moore argues mimic and replicate fundamental facets of Roman imperial ideology even while resisting and eroding it. The book concludes with an amply annotated bibliography whose main section provides a comprehensive listing of work done to date in postcolonial biblical criticism.      *Young Men's Era* ,1894      **The Bookseller**, 1899
