Remote Jobs Ipad 2025:

Ideas Don't Die. Companies Do. Hari Abburi, 2025-07-04 Rethink ideas as the real value to the future of your business in a technology world where knowledge is increasingly a commodity. In Ideas Don't Die Companies Do, renowned voice on disruptive agility and executive Hari Abburi delivers an insightful framework for leaders to future proof their companies by creating an idea obsessed enterprise. In the book you'll learn why ideas are more important than customers to disrupt the industry and marketplace. The author explains how to distinguish between ideas that are truly original and those that require strategic execution to differentiate them from other choices on the market. He offers key insights into how to glean information from other companies who have worked with the idea and how to apply that knowledge to your firm's own idea. Inside the book: Explanations of the idea moat that creates exponential value at one company as opposed to another that uses similar ideas; Compelling answers to questions about idea timing and why ideas that failed a few years ago can be successful today; How to shift your company's focus from thinking customers to thinking ideas; Perfect for managers, executives, entrepreneurs, founders, and other business leaders. Ideas Don't Die Companies Do will also benefit product team leaders and other innovators with a desire to bring new and exciting ideas to the market.

Facing an Exponential Future Darrel W. Staat, 2018-06-05 This book will bring awareness to community college administrators and faculty to the recent technological developments such as Artificial Intelligence, autonomous vehicles, personal robots, 3D printing, the Internet of Things, nanotechnology, genome research, bitcoin, and quantum computing. These technologies will require radical change in the operation of community colleges. This book describes the new technologies, discusses the impact on the community college environment, and provides recommendations for modifying college operations.
