Walk into My Life Bin Sobchuk, 2025-10-14 Ms Sobchuk's work is a straightforward and yet engaging account of her experiences navigating the social and cultural landscape of a dynamic metropolis. She communicates her thoughts and feelings with heartfelt concern for her fellow citizens and expresses her opinions with forthright candidness. I recommend that readers follow Ms Sobchuk on her exciting journey as she acquires some new exotic animals, visits a singles party, peruses the shops and restaurants of downtown Toronto, and even goes out on the town in her exploration of the nightlife of the big city. Readers won't be disappointed in their walk with Bin Sobchuk.

Introduction to Information Systems R. Kelly Rainer (Jr.), Brad Prince, Cristóbal Sánchez-Rodríguez, Sepideh Ebrahimi, Ingrid Spletstoesser, 2023-10-23 As digital transformation becomes increasingly central to effective corporate strategy, today's students must learn how information systems provide the foundation for modern business enterprises. Known for its rich Canadian content and focus on active learning, *Introduction to Information Systems* Sixth Canadian Edition shows students how they can use IS to help their current or future employers increase profitability, improve customer service, manage daily operations, and drive impact in their markets. This course demonstrates that IT is the backbone of any business, whether a student is majoring in accounting, finance, marketing, human resources, production operations management, or MIS. In short, students will learn how information systems provide the foundation for all modern organizations, whether they are public sector, private sector, for profit, or not for profit.

Chinese Platforms Jian Lin, Wilfred Yang Wang, Ping Sun, 2025-12-10 The rise of the Chinese internet has reconfigured digital culture around the world. From social media platforms such as WeChat and Douyin to utility platforms like Didi and Eleme, the Chinese platform economy has shown a remarkable capacity to innovate and grow, incurring constraints as well as receiving protection from the Chinese state. This is the first textbook to centre Chinese platforms in the transformation of the global internet. Offering an overview of the history, governance, and social/political implications, the book shows how Chinese platforms are situated within the domestic political economy of China and the external geopolitics and cross-border mobilities of capital, technology, and populations. Topics covered include policy and governance, social media, entertainment, e-commerce, digital labour, and the Chinese diaspora. Comparing and contrasting the Chinese platform ecology with its global counterpart, the book argues that while Chinese platforms exhibit more effective economic and technological innovation and have strong cultural cachet, they are subject to a far greater degree of state oversight, including facilitation as well as correction and censorship. *Chinese Platforms* is a required reading for students of Media and Communication Studies and China Studies, as well as those interested in the rise of digital China and the implications for the global platform society.
