**Election Manipulation in the USA. Using the Example of Cambridge Analytica** ,2023-02-01 Pre University Paper from the year 2022 in the subject Politics Region USA grade 1 0 language English abstract This paper questions if democratic elections are still even possible at all The goal of this paper is to explain which methods Cambridge Analytica used to try to influence the 2016 presidential election In that course it aims to answer the question if these practices are a threat to democratic elections The company in question was called Cambridge Analytica a data analysis and political consulting company which used user data from Facebook and other social media services to manipulate voters behaviour It is the 8th November 2016 day of the 58th presidential election in the United States of America The republican Donald Trump and his vice president candidate Mike Pence are competing against the democrat Hillary Clinton and her vice president candidate Tim Kaine According to surveys and polls prior to the election Clinton has higher chance of winning and is expected to become the 45th president of the United States A big surprise was revealed to the world that day when for the fourth time in American history a presidential candidate was elected without actually having the majority of citizens votes Donald Trump won the election and took office as the 45th president of the United States on January 20 2017 But what if this election was possibly manipulated What if a single company had the power and the possibilities to completely analyse predict and influence voters behaviour This might sound like an idea from a science fiction movie but it is reality and it happened without the world even realising it After dealing with the case of Cambridge Analytica one might think that electoral manipulation using data seems to be alarmingly easy in the digital age Rallies, Propaganda, Democracy Kevin Fernandez,2016 Searcher ,2008-11 **Think Like Zuck: The Five Business Secrets of Facebook's Improbable**

An Approach to Viral Grievances according to Collier and Hoeffler* Thalita Müller, 2023-01-16 Seminar paper from the year 2022 in the subject Politics Topic Peace and Conflict Security grade 17 Catholic University Eichstätt Ingolstadt

language English abstract This paper investigates Facebook's role in the Rohingya crisis. The term Rohingya is widely used to name the Muslim ethnic minority in Rakhine also known as Arakan State Myanmar. Myanmar with its prevalently Buddhist population systematically oppressed the group for example Rohingyas are denied citizenships which makes it impossible for the Rohingyas to enjoy the state's welfare system etc. In respond to this maltreatment the Arakan Rohingya Salvation Army ARSA attacked several police stations in the Rakhine state in 2017. Myanmar's armed forces retaliated with atrocities against the Rohingya Muslim minority so fiercely and brutally that even the extra funded UN Independent International Fact Finding Mission on Myanmar IIFFMM reasoned that there was genocidal interest in Myanmar's so called anti terrorist actions. In 2019 more than 900 000 Rohingya refugees were counted in the neighboring Bangladesh. The genocide and other mass atrocities are still on going.

*Leadership 2.0 in processes of a sustainable change* Prof. Dr. Michael Kurwan, 2025-06-30

Document from the year 2025 in the subject Leadership and Human Resources. Leadership language English abstract. In order to successfully implement sustainable changes in a company in the context of change processes strong leadership is required at the top of a company which should have a great deal of empathy and a sure instinct in order to position the company in the market in the long term and profitably. In order to successfully shape these sustainable changes it will not be the famous power of the leader of the past but will only work with the involvement of employees in the new world of work in the knowledge age which is characterized by digitalization and artificial intelligence. This new form of leadership is also referred to as Leadership 2.0 in which it is important to retain top performers and in particular key personnel in the company in the long term which is a very challenging leadership task in HR management. In change processes a fundamental distinction must be made between incremental change management and radical change management. While incremental change takes place continuously and is integrated into everyday working life radical change represents a strategic realignment of the company which is largely associated with staff reductions and is intended to change the corporate culture. This is particularly true in the case of restructuring where cost cutting programs play a decisive role in ensuring the long term survival of the company. Employees are more willing to go along with incremental change also known as continuous improvement than radical change as they could also be affected by staff cuts. This fuels employees fears and therefore often leads to high staff turnover.

**E-tailing in India. Customer satisfaction and online consumer buying behaviour**

Saumya Mishra, 2022-04-04 Master's Thesis from the year 2022 in the subject Business economics Offline Marketing and Online Marketing grade A course Master of commerce language English abstract. This study tries to determine reasons for the shift of urban Indian youth shopping orientation from physical stores to online stores and the impact of various factors on customer satisfaction and loyalty. It also compares factors affecting online consumer buying behaviour of differently oriented shoppers and is supposed to identify the usage of mobile shopping application and its attractiveness amongst urban Indian youth. E-tailing in India is growing at a rapid pace and need of study arises for the E-tailers to provide better improved
