Advances in Artificial Intelligence, Software and Systems Engineering Tareq Z. Ahram, Waldemar Karwowski, Jay Kalra, 2021-07-07 This book addresses emerging issues concerning the integration of artificial intelligence systems in our daily lives. It focuses on the cognitive, visual, social, and analytical aspects of computing and intelligent technologies and highlights ways to improve the acceptance, effectiveness, and efficiency of said technologies. Topics such as responsibility, integration, and training are discussed throughout. The book also reports on the latest advances in systems engineering with a focus on societal challenges and next-generation systems and applications for meeting them. Further, it covers some cutting-edge issues in energy, including intelligent control systems for power plant and technology acceptance models. Based on the AHFE 2021 Conferences on Human Factors in Software and Systems Engineering, Artificial Intelligence, and Social Computing and Energy held virtually on 25-29 July 2021 from USA, this book provides readers with extensive information on current research and future challenges in these fields together with practical insights into the development of innovative services for various purposes.
