Introducing iOS 8 Steve Derico, 2014-12-03 Learn to make iOS apps even if you have absolutely no programming experience. This hands on book takes you from idea to App Store using real world examples such as driving a car or eating at a restaurant to teach programming and app development. You'll learn concepts through clear, concise, jargon free language. This book focuses on Apple's new programming language Swift. Each lesson is divided into two parts: the lecture portion explains the terms and concepts through examples, and the exercise portion helps you apply these concepts while building real world apps like a tip calculator. Learn how to think differently and see the world from a whole new perspective. Learn the basic building blocks of programming. Dive into the Swift programming language. Make apps for iPhone and iPad. Use GPS in your app to find a user's location. Take or select photos with your app. Integrate your app with Facebook and Twitter. Submit your app to the App Store. Manage and market your app on the App Store.

The Business of iPhone and iPad App Development Dave Wooldridge, Michael Schneider, 2011-08-18 The phenomenal success of the iPhone, iPad, and the iPod touch has ushered in a gold rush for developers, but with well over 300 000 apps in the highly competitive App Store, it has become increasingly difficult for new apps to stand out in the crowd. Updated and expanded for iOS 4, this bestselling book will show you how to incorporate marketing and business savvy into every aspect of the design and development process, giving your app the best possible chance of succeeding in the App Store. **The Business of iPhone and iPad App Development** was written by experienced developers with business backgrounds, taking you step by step through cost effective marketing techniques that have proven successful for professional iOS app creators, perfect for independent developers on shoestring budgets. No prior business knowledge is required. This is the book you wish you had read before you launched your first app.
