examination of the characteristics of children who have reading comprehension difficulties and examines ways in which comprehension can be supported and improved. It is accessibly written for students and professionals with no previous background in the psychology of reading or reading problems. This indispensable handbook asks the question: what is comprehension? The authors consider comprehension of different units of language: understanding single words, sentences, and connected prose, and outline what readers and listeners have to do to successfully understand an extended text. This book also considers comprehension for different purposes: in particular, reading for pleasure and reading to learn, and explores how reader characteristics such as interest and motivation can influence the comprehension process. Different skills contribute to successful reading comprehension. These include word reading ability, vocabulary knowledge, syntactic skills, memory, and discourse level skills such as the ability to make inferences, knowledge about text structure, and metacognitive skills. The authors discuss how each one contributes to the development of reading comprehension skill and how the development of these skills or their precursors in pre-readers provides the foundation for reading comprehension development. Areas covered include: Word reading and comprehension; Development of comprehension skills; Comprehension difficulties; Assessment; Teaching for improvement. Throughout the text, successful experimental and classroom-based interventions will be highlighted; practical tips for teachers; and summary boxes detailing key points and explaining technical terms will be included in each chapter.

Spotlight on Comprehension Linda Hoyt, 2005. *Spotlight on Comprehension* presents a tapestry of short, highly practical essays loaded with ready-to-use strategies for teaching reading comprehension and assessing understanding. Hoyt and an All-Star ensemble of contributors including Ellin Keene, Tony Stead, Nell Duke, Franki Sibberson, Mike Opitz, David and Yvonne Freeman, Adria Klein, Mary Lee Hahn, and Gretchen Owocki cover the spectrum of comprehension instruction, addressing topics like implementing the latest research on reading comprehension into your instruction, improving children's comprehension strategies, especially questioning, inferring, and summarizing, helping emerging, developing, and second language readers improve their comprehension using writing to build reading comprehension, tackling a range of texts and genres across the curriculum, including standardized tests, building a robust vocabulary, organizing instruction around guided reading, the read-aloud, and independent reading. Best yet, Hoyt and her expert contributors include handy tools like checklists, sample lesson plans, book lists, strategy lists, assessment rubrics, and learning extensions that will help you take their ideas and use them in your own classroom immediately. Each chapter even includes Key Questions designed to stimulate personal reflection and support professional conversations or book study groups. Read *Spotlight on Comprehension* in short segments or all at once by yourself or with friends and colleagues and gather a wealth of strategies for building a literacy of thoughtfulness which will empower your students to get the most meaning from the varied texts of our world.
