Good Meal Prep Ideas For Beginners and Dummies Barbara Dawson, 2020-08-18 Meal prepping is meal planning a meal or recipe then portioning it out to ready meals for later. If you've ever kept leftovers from dinner to take with you for lunch the next day, you've likely done mini meal prep. Generally, meal prepping refers to preparing 3-7 days worth of food at once. Think of it like keeping your lunches for the week all at once instead of keeping your lunch ham sandwiches. You can use the same techniques for breakfast, lunch, dinner, and snacks. Meal prepping prevents waste and reduces time spent cooking outside your plan, and it can save you money. When keeping your meal plan day after day, the question is: Can you eat healthy meals without having to do it every day? Meal prep is not for everyone. It is a great way to save time and money, but it requires more effort than just eating out. With meal prep, you generally eat the same thing for a few days in a row, so if you don't like leftovers or get bored with meal prep, it's not for you. If having a meal plan that maximizes your time and budget is more valuable to you than something different every day, then meal prep is for you.
