**Collaborating for Change** Susan D. Greenbaum, Glenn Jacobs, Prentice Zinn, 2020-01-17 Collaborating for Change A Participatory Action Research Casebook documents the stories of a dozen community based research projects in the United States The book is for social justice activists and their research allies that learn best from real stories and real projects that bring insight about how democratizing research supports social change and our understanding of complex social issues A

*Shared Future* Richard L. Wood, Brad R. Fulton, 2015-12 At a time when participation in democratic governance exhibits a decrease among the less well off and an increase of power among the elite one big question concerns how to reverse this trend Wood and Fulton have devoted this book to finding ways to build democratic participation by low income and working families and to create cross racial alliances Here s where faith based organizations enter the picture These organizations have been significant players in shaping health care reform financial reform and immigration reform at higher levels of government aimed at benefitting working families It is a movement which directly addresses economic inequality policy paralysis and racial injustice in the United States Faith based organizing the authors show offers important lessons for an American public struggling to combine universalist democratic ideals with an increasingly multicultural reality in what will soon be a thoroughly multicultural society as new immigrant arrivals and demographic diffusion spread diversity into settings that were once bastions of white subculture Models for community organizing have been supplied over time by Saul Alinsky Cesar Chavez and Martin Luther King Jr A Shared Future has a distinctly empirical focus on one of the most important sponsoring networks for faith based organizations PICO Pacific Institute for Community Organizations which shifted neighborhood based organizations to congregation based organizations They achieved a high profile during the formation of health care policy that found its way into Obamacare legislation and have also been an important agent for addressing racial equity Wood and Fulton here address a new generation of faith based community organizers seeking to ground the movement in what they call ethical democracy and fleshing out an approach to addressing economic inequality and political paralysis

*Fair Share* Gary Alan Fine, 2023-01-23 If you ve ever been to a protest or been involved in a political group you have likely experienced a distinct cultural niche one with its own slogans lingo and social dynamics Though one might immediately think of a cohort of relatively young organizers with bullhorns when imagining protest culture this ethnography from sociologist Gary Alan Fine explores the social world of senior citizens on the front lines of progressive protests specifically those involved in Chicago Seniors Together an activist group founded in the 1970s While seniors are a notoriously important and historically conservative political cohort Chicago Seniors Together is a decidedly leftist organization The group has advocated for social issues such as affordable housing and healthcare that affect all sectors of society but take on a particular meaning and urgency in the lives of seniors Seniors thus connect and mobilize over a distinct experience but in service of concerns that extend beyond themselves Not only do these seniors experience social issues in a

unique capacity they are also able to use their age as an effective tool in advocating for political issues Fine not only takes us into an overlooked political group he describes how what he calls a tiny public mobilizes their group's concerns toward broad social change More specifically he shows that senior citizen activists are particularly savvy about using age to their advantage in social movements What could be more attention grabbing than a group of passionate older people determinedly shuffling through snowy streets to demand healthcare equity risking their own health in the process

### **Missing Class**

Betsy Leondar-Wright, 2014-03-19 Many activists worry about the same few problems in their groups low turnout inactive members conflicting views on racism overtalking and offensive violations of group norms But in searching for solutions to these predictable and intractable troubles progressive social movement groups overlook class culture differences In *Missing Class* Betsy Leondar Wright uses a class focused lens to show that members with different class life experiences tend to approach these problems differently This perspective enables readers to envision new solutions that draw on the strengths of all class cultures to form the basis of stronger cross class and multiracial movements The first comprehensive empirical study of US activist class cultures *Missing Class* looks at class dynamics in 25 groups that span the gamut of social movement organizations in the United States today including the labor movement grassroots community organizing and groups working on global causes in the anarchist and progressive traditions Leondar Wright applies Pierre Bourdieu's theories of cultural capital and habitus to four class trajectories lifelong working class and poor lifelong professional middle class voluntarily downwardly mobile and upwardly mobile Compellingly written for both activists and social scientists this book describes class differences in paths to activism attitudes toward leadership methods of conflict resolution ways of using language diversity practices use of humor methods of recruiting and group process preferences Too often we miss class *Missing Class* makes a persuasive case that seeing class culture differences could enable activists to strengthen their own groups and build more durable cross class alliances for social justice
