Narrative Politics Stories And Collective Action:

Narrative Politics Frederick W. Mayer, 2014-04-08 Narrative Politics explores two puzzles. The first has long preoccupied social scientists: How do individuals come together to act collectively in their common interest? The second is one that has long been ignored by social scientists: Why is it that those who promote collective action so often turn to stories? Why is it that when activists call for action, candidates solicit votes, organizers seek new members, generals rally their troops, or coaches motivate their players, there is so much story telling? Frederick W. Mayer argues that answering these questions requires recognizing the power of story to overcome the main obstacles to collective action: to surmount the temptation to free ride, to coordinate group behavior, and to arrive at a common understanding of the collective interest. In this book, Mayer shows that humans are, if nothing else, a story telling, story consuming animal. We use stories to make sense of our experience and to imbue it with meaning; our self-narratives define our sense of identity and script our actions. Because we are constituted by narrative, we can be moved by the stories told to us by others. That is why leaders who call a community to action seek to frame their invocations in a story in which tragedy and triumph hang in the balance; in which taking part in the collective action becomes a moral imperative rather than a matter of calculated self-interest. Drawing on insights from neuroscience and behavioral economics, political science and sociology, history and cultural studies, literature and narrative theory, *Narrative Politics* sheds light on a wide range of political phenomena from social movements to electoral politics to offer lessons for how the power of story fosters collective action.

The Routledge Companion to Narrative Theory Paul Dawson, Maria Mäkelä, 2022-07-18 The Routledge Companion to Narrative Theory brings together top scholars in the field to explore the significance of narrative to pressing social, cultural, and theoretical issues. How does narrative both inform and limit the way we think today? From conspiracy theories and social media movements to racial politics and climate change, future scenarios, the reach is broad. This volume is distinctive for addressing the complicated relations between the interdisciplinary narrative turn in the academy and the contemporary boom of instrumental storytelling in the public sphere. The scholars collected here explore new theories of causality, experientiality, and fictionality; challenge normative modes of storytelling and offer polemical accounts of narrative, fiction, nonfiction, and video games. Drawing upon the latest research in areas from cognitive sciences to complexity theory, the volume provides an accessible entry point for those new to the myriad applications of narrative theory and a point of departure for new scholarship.

Politics without Stories David Ricci, 2016-10-27 Conservatives use great stories to prescribe government policy. Liberals engage the world via science and pragmatism, rendering liberalism less inspiring. This book examines this difference.

Decolonizing African Knowledge Toyin Falola, 2022-07-14 Addressing the consequences of European slavery, colonialism, and neo-colonialism on African history, knowledge, and its institutions, this innovative book applies autoethnography to the understanding of African knowledge systems. Considering the Self and Yoruba Being, the individual and the collective in the context of the African decolonial

project Falola strips away Eurocentric influences and interruptions from African epistemology Avoiding colonial archival sources it grounds itself in alternative archives created by memory spoken words images and photographs to look at the themes of politics culture nation ethnicity satire poetics magic myth metaphor sculpture textiles hair and gender Vividly illustrated in colour it uses diverse and novel methods to access an African way of knowing Exploring the different ways that a society understands and presents itself this book highlights convergence enmeshing private and public data to provide a comprehensive understanding of society public consciousness and cultural identity *Collective Action Problem* Jamilya Tolenovna Ukudeeva-Freeman,2003 **Creating Market Socialism** Carolyn L. Hsu,2007-09-03 Based on interviews with ordinary Chinese citizens this work examines how people as opposed to Communist Party elites are establishing the new economic order in China **The Everyday Life of Politics** John Alexis Guidry,1996 *Between M-Otherness and Identity* Sara Lazar,2006 **Martin Luther King and the Rhetoric of Freedom** Gary S.
