transportation a new approach for Nashville As a private not for profit the center listens with independent ears and speaks with an independent voice Previous plans by Metro government departments and their consultants were constrained by politics and patronage by available funding or the need to solve specific problems Another significant difference from previous plans is the area of study The Plan of Nashville is not an island bound by the noose of the interstate loop The Plan integrates downtown with the areas that frame it via the spoke roads that are the historic entries into downtown Rather than taking a top down approach the design center organized the process of listening to the community Over 400 citizens attended a series of workshops in downtown and the surrounding neighborhoods to express their opinions and draw their dreams The center s staff translated the results into a series of maps and illustrations with explanatory text that articulate a three dimensional vision for the city that will serve as a litmus test for current and future development *Guide to America; a Treasury of Information about Its States, Cities, Parks, and Historical Points of Interest* ,1947 **Bibliographic Guide to Art and Architecture** New York Public Library.
