Nationalism Anti Semitism And Fascism In France:

Nationalism, Anti-semitism, and Fascism in France Michel Winock,1998 In a wide ranging set of essays on political literary and cultural figures this book traces the history of nationalism in France in all its permutations its myths obsessions possibilities and dangers

French Literary Fascism David Carroll,1998-07-21 Focusing first on three important extremist nationalist writers at the turn of the century and then on five of the most visible fascist intellectuals in France in the 1930s David Carroll shows how both traditional and modern concepts of art figure in the elaboration of fascist ideology and in the presentation of fascism as an art of the political

France in the Era of Fascism Brian Jenkins,2005 This volume brings together the leading critics of the immunity thesis to fascism in France in the 1930s Robert Paxton Zeev Sternhell and Robert Soucy who have refined and updated their positions in these essays

The Developing of the Radical Rights in France Edward J. Arnold,2000-05-23 This book traces the origins and evolution of extreme right wing thought in France from the end of the nineteenth century to the present day It establishes the presence of an ideological tradition or organicist exclusive nationalism initiated at the end of the nineteenth century which adapts itself to the post First World War and re emerges forcibly during the Occupation Elements of this same tradition are present in the modern discourse of the extreme right in post war France This helps the student of modern French politics to see movements like the Front National in their historical perspective

The Journal of Jewish Studies ,2002

Between France and the World Rachel Marie Nunez,2006

Nationalism & Antisemitism in Modern Europe, 1815-1945 S. Almog,1990 This latest volume in the Studies in Antisemitism Series looks at the interaction between nationalism and antisemitism in post Napoleonic Europe Using a framework of major historical events for the period 1815 1945 Shmuel Almog traces the radicalization of national ideology in these years and its relationship to the rise of political antisemitism Nationalism in early nineteenth century Europe developed originally as a liberal democratic philosophy in opposition to existing political social and economic structures This coincided with a period of increasing integration of the Jewish minority into mainstream European life particularly in economic spheres By the 1870s however the continued growth of nationalist aspirations increasingly allied to an imperialist conservative and militaristic culture led to a rise in discord between nations and a concomitant increase in the importance of national peculiarities This was to have a profound effect on the Jewish communities in Europe with the Jews being viewed as an alien and even dangerous force within the newly created nation states The book argues that growing extremism in nationalist attitudes afforded a suitable ideological and social background for antisemitic activity as manifested by calls for discriminatory legislation against Jews the pogroms of Eastern Europe and ultimately the Nazi Holocaust This analysis is substantiated and reinforced by a series of annotated documents and illustrations This book is a clear account of the development of one of the key elements of antisemitic ideology in this important period of European history

World Fascism Cyprian Blamires,2006-09-18 This book shows how during the 20th century evils such as totalitarianism tyranny war

and genocide became indelibly linked to the fascist cause and examines the enduring and popular appeal of an ideology that has counted princes poets and war heroes among its most fervent adherents From the followers of Hajj Amin Al Husseini the Arab leader who met with Adolf Hitler in November 1942 to the murderous death squads of the Croatian Ustasha to certain members of the British Establishment fascism's heady brew of extreme nationalism and revolutionary violence has attracted followers from across all religions races and classes Now widely reviled fascism became an immensely powerful political force in Western Europe throughout the 1930s and into the 1940s How did civilized nations like Italy Germany Austria and others succumb to an ideology now regarded by the political mainstream as barbarous and beyond the pale World Fascism A Historical Encyclopedia covers all the key personalities and movements throughout the history of fascism and brings to light some of the ideology's lesser known aspects from Hindu extremists in India to the influential role of certain women in fascist movements How did an ideology which was openly boastful of its belief in violence come to seduce the elites of some of the most civilized nations on earth What can explain fascism's enduring appeal

Understanding Nationalism Birgir Hermannsson, 2005 Abstract en This dissertation is an attempt to understand nationalism in a general sense and Icelandic nationalism in particular For this purpose the concepts of ideology political culture discourse and political language are pushed to the forefront as viable analytical tools to take on the difficult phenomena of nationalism It is argued that this perspective is useful in conceptualizing and studying nationalism Moreover it serves both as a benchmark to evaluate the theoretical field as well as guiding the empirical study There is no consensus on either the correct definition of nationalism or the proper theoretical approach to study it This is a result of the highly contested nature of nationalism and the politically infused character of all attempts to define it Both the subject the scholar and the object nationalism are part of changing historical circumstances which make all attempts to objectify nationalism fruitless as well as making our understanding conditional The problematic of the influential modernist school namely state formation democratic rule and economic transformation is accepted as crucial for our understanding of nationalism Its understanding of culture and ideology is however shown to be too instrumental and elitist Cultural production and reception must be given greater prominence The role of external models and the problem of imitation are clearly important for the intellectual mobilization of nationalism The desired model for imitation is not accepted unchanged but must in some way be adapted to the prevailing traditions or conventions of the adapting country

Antisemitism Susan Sarah Cohen, 1987 *Fascism in France* Robert Soucy, 1972

Antisemitism Richard S. Levy, Dean Phillip Bell, William Collins Donahue, Kevin Madigan, Jonathan Morse, Amy Hill Shevitz, Norman A. Stillman, 2005-05-24 [The Extended Nation : B Collective Identity in Antifascist Women's Literature](#) Sujata Nadkarni, 1999 **Doctoring the Empire** Giuliana Lund, 1997 **The Lure of Fascism in Western Europe** Dietrich Orlow, 2009-01-08 This book is an important contribution to the study of West European fascism in the inter war years Focusing on the organizational and ideological relations of the German Nazis and French and Dutch fascists Dietrich

Orlow analyzes the evolving attitudes and conflicts among the Nazis toward the West European extreme Right along with the conflicting views which French and Dutch fascists had about the Third Reich in the years from 1933 onward **The National Jewish Monthly**, 1933 Imagining Fascism Paul Mazgaj, 2007 The role and influence of intellectuals is one of the flashpoints in the recurring debate on the nature and dimensions of French fascism At the forefront of this debate are a group of emerging writers collectively known as the Young Right Though thoroughly schooled in the reactionary nationalism of Charles Maurras Action française whose orbit they entered in the early 1930s they were soon seduced by the mobilizing force of neighboring fascist movements and regimes Led by two precocious literary talents Robert Brasillach and Thierry Maulnier the Young Right set themselves to rejuvenating French nationalism and winning a place for France in an emerging new Europe Their project an attempt to graft lessons from foreign sources onto a native language of French generational and cultural politics was one of several efforts to create a distinctive French fascism Stanisław Brzozowski and the Migration of Ideas Jens Herlth, Edward M. Swiderski, Dorota Kozicka, 2019 As a writer critic and philosopher Stanislaw Brzozowski 1878-1911 left a lasting imprint on Polish culture The essays in this volume reassess and contextualize Brzozowski's writings from a distinctly transnational vantage point **The Extreme Right in France, 1789 to the Present** Peter Davies, 2002 Since 1789 the far right has been an important factor in French political life and in different eras has taken on a range of different guises This work surveys the history of this contentious political and intellectual tradition **Under the Shadow of Defeat** K. Varley, 2008-09-24 Based on extensive archival research this book is the first wide ranging analysis of how memories of the Franco Prussian War shaped French political culture and identities Examining war remembrance as an emerging mass phenomenon in Europe it sheds new light on the relationship between memories and the emergence of new concepts of the nation
