Understanding Hospital Billing and Coding Debra P. Ferenc, 2013-02-26 A basic guide to hospital billing and reimbursement. *Understanding Hospital Billing and Coding* 3rd Edition helps you understand, complete, and submit the UB 04 claim form that is used for all Medicare and privately insured patients. It describes how hospitals are reimbursed for patient care and services, showing how the UB 04 claim form reflects the flow of patient data from the time of admission to the time of discharge. Written by coding expert Debra P. Ferenc, this book also ensures that you understand the essentials of ICD 10 CM and develop skills in both inpatient coding and outpatient ambulatory surgery coding. *UB 04 Claim Simulation* on the companion Evolve website lets you practice entering information from source documents into the claim form. Over 300 illustrations and graphics bring important concepts to life. Detailed chapter objectives highlight what you are expected to learn. Key terms, acronyms, and abbreviations with definitions are included in each chapter. Concept Review boxes reinforce key concepts. Test Your Knowledge exercises reinforce lessons as you progress through the material. Chapter summaries review key concepts. Practice hospital cases let you apply concepts to real-life scenarios. Updated Claim Forms chapter covers the UB 04 claim form. Updated information covers diagnosis and procedural coding with guidelines and applications. Updated claim forms and names are used throughout.

complement the official conventions and instructions provided within the ICD 10 CM itself. The instructions and conventions of the classification take precedence over guidelines. These guidelines are based on the coding and sequencing instructions in the Tabular List and Alphabetic Index of ICD 10 CM but provide additional instruction. Adherence to these guidelines when assigning ICD 10 CM diagnosis codes is required under the Health Insurance Portability and Accountability Act (HIPAA). The diagnosis codes Tabular List and Alphabetic Index have been adopted under HIPAA for all healthcare settings. A joint effort between the healthcare provider and the coder is essential to achieve complete and accurate documentation, code assignment and reporting of diagnoses and procedures. These guidelines have been developed to assist both the healthcare provider and the coder in identifying those diagnoses that are to be reported. *2002 ICD-9-CM Expert for Hospitals* Anita C.
