Sustainable Smart Cities and the Future of Urban Development Al-Humairi, Safaa, Nahajah, Hajamydeen, Asif Iqbal, Mahfoudh, Asmaa, 2024-12-05 As global urbanization continues to accelerate, smart cities emerge as a strategy to

address the complexities of modern urban life. These cities invest in human and social capital, communication infrastructure and technology to drive sustainable economic growth and ensure a high quality of life. Participatory governance plays a crucial role in managing natural and man-made resources effectively. Driven by a growing global population and a pressing need to address environmental concerns, the concept of a smart city has emerged as a potential solution. Sustainable Smart Cities and the Future of Urban Development delves into the exciting intersection of sustainable development and smart city technologies, exploring how these forces can be harnessed to shape a more livable and resilient future for our urban environments. Through a multidisciplinary lens, this book explores the concept of sustainable smart cities by elucidating their fundamental characteristics and components. Covering topics such as artificial intelligence, AI, renewable energy and waste management, this book is an excellent resource for urban planners, architects, technology developers, innovators, community leaders, industry professionals, academicians, researchers and more.
