collaborate perhaps because environmentalists focus on species and ecosystems while animal advocates look to the individual  
and neither seems to have much respect for the other This diverse collection of essays highlights common ground between  
earth and animal advocates most notably the protection of wildlife and personal dietary choice If earth and animal advocates  
move beyond philosophical differences and resultant divergent priorities turning attention to shared goals both will be more  
effective and both animals and the environment will benefit Given the undeniable seriousness of the environmental problems  
that we face including climate change and species extinction it is essential that activists join forces Drawing on a wide range  
of issues and disciplines ranging from wildlife management hunting and the work of NGOs to ethics ecofeminism religion and  
animal welfare this volume provides a stimulating collection of ideas and challenges for anyone else who cares about the
