## **Nanking 1937 Memory And Healing Memory And Healing:**

*Nanking 1937* Robert Sabella, Fei Fei Li, David Liu, 2002 In recent years the international community has begun to scrutinize and in many cases condemn the atrocities that took place at Nanking in late 1937. This is all part of a larger worldwide movement in which both nations and multinational groups are attempting to reach closure regarding past atrocities and inhumanities. As represented by the contributors to this book these activities have an importance reaching far beyond aggressors or victims beyond admission or vindication but rather are a search for the common causes of all human atrocities and for solutions that would set humanity on a path toward a more peaceful and harmonious international community

**Dark Tourism and Place Identity** Leanne White, Elspeth Frew, 2013-03-20 Dark Tourism including visitation to places such as murder sites, battlefields and cemeteries is a growing phenomenon as well as an emergent area of scholarly interest. Despite this interest the intersecting domains of dark tourism and place identity have been largely overlooked in the academic literature and this book aims to fill this void. The three main themes of Visitor Motivation, Destination Management and Place Interpretation are addressed in this book from both a demand and supply perspective by examining a variety of case studies from around the world. This edited volume takes the dark tourism discussion to another level by reinforcing the critical intersecting domains of dark tourism and place identity and in particular highlighting the importance of understanding this connection for visitors and destination managers. Written by leading academics in the area this stimulating volume of 19 chapters will be valuable reading for postgraduate and advanced undergraduate students in a range of discipline areas, researchers and academics interested in dark tourism and other interested stakeholders including those in the tourism industry, government bodies and community groups.

*Japanese Army Stragglers and Memories of the War in Japan, 1950-75* Beatrice Trefalt, 2013-01-11 This book charts comprehensively the various discoveries in Southeast Asia and the Pacific of Japanese soldiers still fighting the Second World War many years after it had ended. It explores their return to Japan and their impact on the Japanese people, revealing changing attitudes to war veterans and war casualties families as well as the ambivalence of memories of the war.

**The Journal of Military History**, 2006 **War Memory and Social Politics in Japan, 1945-2005** Franziska Seraphim, 2006 Japan has long wrestled with the memories and legacies of World War II. In the aftermath of defeat war memory developed as an integral part of particular and divergent approaches to postwar democracy. In the last six decades the demands placed upon postwar democracy have shifted considerably from social protest through high economic growth to Japanese relations in Asia and the meanings of the war shifted with them. This book unravels the political dynamics that governed the place of war memory in public life. Far from reconciling with the victims of Japanese imperialism successive conservative administrations have left the memory of the war to representatives of special interests and citizen movements all of whom used war memory to further their own interests. Franziska Seraphim traces the activism of five prominent civic organizations to examine the ways in which diverse organized memories have

secured legitimate niches within the public sphere. The history of these domestic conflicts cover the commemoration of the war dead, the manipulation of national symbols, the teaching of history or the articulation of relations with China and Korea. This is crucial to the current discourse about apology and reconciliation in East Asia and provides essential context for the global debate on war memory.

**The Chinese Historical Review**, 2008 Global Lynching and Collective Violence Michael J.

Pfeifer, 2017-02-10 Often considered peculiarly American lynching in fact takes place around the world. In the first book of a two volume study Michael J Pfeifer collects essays that look at lynching and related forms of collective violence in Africa, Asia and the Middle East. Understanding lynching as a transnational phenomenon rooted in political and cultural flux the writers probe important issues from Indonesia where a long history of public violence now twines with the Internet to South Africa with its notorious history of necklacing. Other scholars examine lynching in medieval Nepal, the epidemic of summary executions in late Qing era China, the merging of state sponsored and local collective violence during the Nanking Massacre and the ways public anger and lynching in India relate to identity, autonomy and territory. Contributors Laurens Bakker, Shaiel Ben Ephraim, Nandana Dutta, Weiting Guo, Or Honig, Frank Jacob, Michael J Pfeifer, Yogesh Raj and Nicholas Rush Smith.

**Japanese War Crimes during World War II** Frank Jacob, 2018-06-08 A challenging examination of Japanese war crimes during World War II offers a fresh perspective on the Pacific War and a better understanding of reasons for the wartime use of extreme mass violence. The 1937 Rape of Nanjing has become a symbol of Japanese violence during the Second World War but it was not the only event during which the Japanese used extreme force. This thought provoking book analyzes Japan's actions during the war without blaming Japan, helping readers understand what led to those eruptions. In fact the author specifically disputes the idea that the forms of extreme violence used in the Pacific War were particularly Japanese. The volume starts by examining the Rape of Nanjing then goes on to address Japan's acts of individual and collective violence throughout the conflict. Unlike other works on the subject it combines historical, sociological and psychological perspectives on violence with a specific study of the Japanese army seeking to define the reasons for the use of extreme violence in each particular case. Both a historical survey and an explanation of Japanese warfare the book scrutinizes incidents of violence perpetrated by the Japanese vis vis theories that explore the use of violence as part of human nature. In doing so it provides far reaching insights into the use of collective violence and torture in war overall as well as motivations for committing atrocities. Finally the author discusses current political implications stemming from Japan's continued refusal to acknowledge its war time actions as war crimes.

**The Tokyo International Military Tribunal** Neil Boister, Robert

Cryer,2008 The Tokyo International Military Tribunal IMT is not frequently discussed in the literature on international criminal law and it is often thought that it was little more and possibly less than a footnote to the Nuremberg proceedings This work seeks to dispel this widely held belief by showing the way in which the Tokyo IMT was both similar and different to its Nuremberg counterpart the extent to which the critiques of the Tokyo IMT have purchase and the Tribunal s contemporary relevance The book also shows how the IMT needs to be treated not just as one overarching entity but also as being made up of different sets of people who made up the prosecution the defence and the judges These disagreed with each other and at times internally over the way in which the trial should proceed and the book shows how each had an impact on the proceedings The book is a comprehensive legal analysis of the Tokyo IMT covering its law theory practice and the lessons it may teach to those prosecuting and defending international crimes today It also places the trial in its political and historical context The work is based in part of extensive archival research undertaken by the authors which has unearthed large quantities of documents that have previously been ignored by those who have studied the Tribunal *The Japanese Economy* ,2001 *The Nassau Herald* ,1999 *Japanese Economic Studies* ,2001 *Contested Views of a Common Past* Steffi Richter,2008 This title brings together renowned scholars to analyse historical revisionism in politics historiography education and the media Drawing on theoretical cross national and comparative perspectives these essays demonstrate how and why historical events have been reevaluated in social political and cultural contexts **China Perspectives** ,2009 **Z Magazine** ,2003 *China Review International* ,2008
