National Teacher Aide Day 2014:

The Unlearning of School Attendance: Ideas for Change Carolyn Gentle-Genitty, Arya Ansari, Ineke Marshall, Michael Gottfried, 2024-04-10 This Research Topic on Unlearning Attendance champions a serious look at school attendance and absenteeism. It examines all forms of school attendance problems ranging from school refusal, truancy, school withdrawal to school avoidance and its correlates of criminal, socio-emotional, developmental, psychological, academic, fiscal, technological, and societal impact. The issue gives a synopsis on the known problems and challenges but also those exacerbated by the pandemic and ideas for improvement. **State Register**, 1989

Early Childhood Policies and Systems in Eight Countries Tony Bertram, Chris Pascal, 2016-07-29 This report provides an overview of policy strategies on early childhood education settings from birth to primary schooling in eight countries. Data were collected using a policy questionnaire addressed to and completed by the National Research Coordinator's NRC of Chile, the Czech Republic, Denmark, Estonia, Italy, Poland, the Russian Federation, and the United States. The countries that participated provide interesting illustrations of early childhood education policy in action in a range of diverse contexts. Analysis of the systemic and structural results of ECE policy at national and where necessary subnational levels enables transnational comparisons in policy and systems. Key policy changes both underway and planned are documented. These data reveal key findings in each of the five policy areas as covered in the questionnaire and this report: public policy, delivery models and providers, participation and enrollment, quality assurance systems, and expectations for child outcomes. In particular, the study aims to provide meaningful information for countries, states, and jurisdictions across the world in relation to early childhood education, mapping the systems, structures, and user pathways in place along with the perceptions of stakeholders about the system, its functioning, and impact. This comprehensive assessment of the wider policy contexts and settings for early childhood education includes teacher/practitioner qualifications, pedagogy, approaches, and opportunities for professional development. Such information will enable countries to review their early childhood education systems in an international context. **Chase's Calendar of Events**
