and providing a better future for its citizens In spite of several decades of reform the Indian electricity sector is unable to  
provide high quality and affordable electricity for all and grapples with the challenge of poor financial and operational

performance To understand why Mapping Power provides the most comprehensive analysis of the political economy of electricity in India's states With chapters on fifteen states by scholars of state politics and electricity this volume maps the political and economic forces that constrain and shape decisions in electricity distribution Contrary to conventional wisdom it concludes that attempts to depoliticize the sector are misplaced and could worsen outcomes Instead it suggests that a historically grounded political economy analysis helps understand the past and devise reforms to simultaneously improve sectoral outcomes and generate political rewards These arguments have implications for the challenges facing India's electricity future including providing electricity to all implementing government reform schemes and successfully managing the rise of renewable energy

**Right to Information and the Grievance Redressal System in India** Bibhuti Bhushan Nayak,2023-01-30 The book critically examines the practice of Right to Information Act and employee's grievance redressal system in India This book initiates the debate on whether the Act leads to an actual redressal of grievances or is it merely an attempt to gather innocuous information which may not have further use It questions whether the absence of an in-built redressal mechanism defeats the core purpose with which the Act was promoted The numerous debates and controversies have continued to surface after the implementation of the Act Many frictions were created between the affected parties i.e. the government bureaucracy judiciary etc on one hand and the general public on the other hand Instead of reducing the burden on the judicial system of India the Act has resulted in increasing the cases related to denial of information from public offices that have reached the courts of law It has led to an additional burden on bureaucracy which is already crumbling under pressure Finally the book argues for public accountability in India and the Odisha state
