**Oh, No! Obama!** Andrews McMeel Publishing, 2010      **Public Papers of the Presidents of the United States, George W. Bush** United States. President (2001-2009 : Bush), 2010      **Public Papers of the Presidents of the United States** United States. President, 2014 Containing the public messages speeches and statements of the President 1956 1992

9/11 Ten Years After Dr Rachel E Utley, 2013-04-28 Ten years on what have been the principal impacts of the terrorist attacks of 11 September 2001 on the external policies and international outlooks of the world's major powers the range and scope of the international security agenda and on the capacity for states and international organisations to work together to combat the dangers of international terrorism This book investigates a range of international responses to the events of 9 11 to evaluate their consistency over time to analyse their long term significance and impact and to consider both their implications for the international security agenda and the prospects for international cooperation in addressing the challenges posed In particular the book considers the perspectives of some of the world's major powers and international organisations on the question of international terrorism and on its perpetrators comparing their interpretations and responses and examining how these have changed over the course of a decade of conflict This book is primarily directed at an academic market and especially towards undergraduate and taught postgraduate students on courses in international politics international relations security studies terrorism studies and contemporary international history      **The End of Greatness** Aaron David Miller, 2014-10-07 The Presidency has always been an implausible some might even say an impossible job Part of the problem is that the challenges of the presidency and the expectations Americans have for their presidents have skyrocketed while the president's capacity and power to deliver on what ails the nation has diminished Indeed as citizens we continue to aspire and hope for greatness in our only nationally elected office The problem of course is that the demand for great presidents has always exceeded the supply As a result Americans are adrift in a kind of Presidential Bermuda Triangle suspended between the great presidents we want and the ones we can no longer have The End of Greatness explores the concept of greatness in the presidency and the ways in which it has become both essential and detrimental to America and the nation's politics Miller argues that greatness in presidents is a much overrated virtue Indeed greatness is too rare to be relevant in our current politics and driven as it is by nation encumbering crisis too dangerous to be desirable Our preoccupation with greatness in the presidency consistently inflates our expectations skews the debate over presidential performance and drives presidents to misjudge their own times and capacity And our focus on the individual misses the constraints of both the office and the times distorting how Presidents actually lead In wanting and expecting our leaders to be great we have simply made it impossible for them to be good The End of Greatness takes a journey through presidential history helping us understand how greatness in the presidency was achieved why it's gone and how we can better come to appreciate the presidents we have rather than being consumed with the ones we want      Congressional

Record United States. Congress,2012      **What's Our Problem?** Tim Urban,2023-02-21 From the creator of the wildly popular blog Wait But Why a fun and fascinating deep dive into what the hell is going on in our strange unprecedented modern times Between 2013 and 2016 Tim Urban became one of the world s most popular bloggers writing dozens of viral long form articles about everything from AI to colonizing Mars to procrastination Then he turned his attention to a new topic the society around him Why was everything such a mess Why was everyone acting like such a baby When did things get so tribal Why do humans do this stuff This massive topic sent Tim tumbling down his deepest rabbit hole yet through mountains of history evolutionary psychology political theory neuroscience and modern day political movements as he tried to figure out the answer to a simple question What s our problem Six years later he emerged from the hole holding this book What s Our Problem is a deep and expansive analysis of our modern times in the classic style of Wait But Why packed with original concepts sticky metaphors and 300 drawings The book provides an entirely new framework and language for thinking and talking about today s complex world Instead of focusing on the usual left center right horizontal political axis which is all about what we think the book introduces a vertical axis that explores how we think as individuals and as groups Readers will find themselves on a delightful and fascinating journey that will ultimately change the way they see the world around them Anyway he wanted to say a lot more about all of this but there was a word limit on this book description so just go read the book      *The Publishers Weekly* ,2009      BNA Pension & Benefits Reporter ,2010      **The New York Times Index** ,2008
