Party Politics In New Democracies Comparative Politics:

Party Politics in New Democracies Paul Webb, Stephen White, 2007-09-20 Comparative Politics is a series for students and teachers of political science that deals with contemporary government and politics. The General Editors are Professor Alfio Mastropaolo, University of Turin and Kenneth Newton, University of Southampton and Wissenschaftszentrum Berlin. The series is published in association with the European Consortium for Political Research. The sister volume to *Political Parties in Advanced Industrial Democracies*, this book offers a systematic and rigorous analysis of parties in some of the world's major new democracies. Drawing on a wealth of expertise and data, the book assesses the popular legitimacy, organizational development and functional performance of political parties in Latin America and postcommunist Eastern Europe. It demonstrates the generational differences between parties in the old and new democracies and reveals contrasts among the latter. Parties are shown to be at their most feeble in those recently transitional democracies characterized by personalistic candidate-centred forms of politics, but in other new democracies, especially those with parliamentary systems, parties are more stable and institutionalized, enabling them to facilitate a meaningful degree of popular choice and control. Wherever party politics is weakly institutionalized, political inequality tends to be greater, commitment to pluralism less certain, clientelism and corruption more pronounced, and populist demagoguery a greater temptation. Without party democracy's hold is more tenuous.

Party Politics in New Democracies Paul D. Webb, Stephen White, 2007-09-20 This book is the sequel to *Political Parties in Advanced Industrial Democracies* (Oxford, 2002). It offers a systematic and rigorous analysis of parties in some of the world's major new democracies, focusing on Latin America and postcommunist Eastern Europe. *Parties, Movements, and Democracy in the Developing World* Nancy Bermeo, Deborah J. Yashar, 2016-12 A comparative study of the role of political parties and movements in the founding and survival of developing world democracies. **Political Parties**

Richard Gunther, José R. Montero, Juan José Linz, 2002 *Political Parties* presents perspectives on political parties in democracies at the beginning of the 21st century. It critically re-examines the classic concepts and typologies that have guided research in this field over the past decades. **The New Party Challenge** Tim Haughton, Kevin

Deegan-Krause, 2020-12-15 Why do some parties live fast and die young but others endure? And why are some party systems more stable than others? Based on a blend of data derived from both qualitative and quantitative sources, *The New Party Challenge* develops new tools for mapping and measuring party systems and develops conceptual frameworks to analyse the dynamics of party politics, particularly the birth and death of parties. In addition to highlighting the importance of agency and choice in explaining the fate of parties, the book underlines the salience of the clean versus corrupt dimension of politics, charts the flow of voters in the new party subsystem and emphasizes the dimension of time and its role in shaping developments. *The New Party Challenge* not only provides the first systematic book-length study of political parties across Central Europe in the three decades since the 1989 revolutions, charting and explaining the patterns of politics in that region.

it also highlights that similar processes are at play on a far wider geographical canvas The book concludes by reflecting on what the dynamics of party politics especially the emergence of so many new parties means for the health and quality of democracy and what could and should be done

Party Policy in Modern Democracies Kenneth Benoit, Michael Laver, 2006-10-16 A new and wide ranging empirical overview of party policy in 47 modern democracies including all of the new democracies of Eastern Europe It updates and radically extends *Policy and Party Competition* 1992 which established itself as a key mainstream data source for all political scientists exploring the policy positions of political parties This essential text is divided into three clear parts Part I introduces the study themes and methodology Part II deals in depth with the wide range of issues involved in estimating and analyzing the policy positions of key political actors Part III is the key data section that identifies key policy dimensions across the 47 countries detailing their party positions and median legislators and is complemented by graphical representations of each party system This book is an invaluable reference for all political scientists particularly those interested in party policy and comparative politics

Political Parties in the New Europe Kurt Richard Luther, Ferdinand Müller-Rommel, 2002 The scope and intensity of the challenges currently faced by western European political parties is exceptionally large threatening the viability of the manner in which they have traditionally operated and causing them to seek new behaviours and strategies This volume brings together some of the foremost scholars of European party politics whose evaluation of political parties in the new Europe is organised under four broad headings Parties and Society Parties as Purposive Organisations Parties and National Government and Parties the Nation State and Beyond The contributors review the latest empirical findings and provide a concise critical review of the theoretical and methodological state of the art They also highlight the analytical challenges confronting party researchers and suggest new avenues for party research

Organizing Political Parties Susan E. Scarrow, Paul D. Webb, Thomas Poguntke, 2017-06-16 Political party organizations play large roles in democracies yet their organizations differ widely and their statutes change much more frequently than constitutions or electoral laws How do these differences and these frequent changes affect the operation of democracy This book seeks to answer these questions by presenting a comprehensive overview of the state of party organization in nineteen contemporary democracies Using a unique new data collection the book's chapters test propositions

about the reasons for variation and similarities across party organizations They find more evidence of within country similarity than of cross national patterns based on party ideology After exploring parties organizational differences the remaining chapters investigate the impact of these differences The volume considers a wide range of theories about how party organization may affect political life including the impact of party rules on the selection of female candidates the links between party decision processes and the stability of party programmes the connection between party finance sources and public trust in political parties and whether the strength of parties extra parliamentary organization affects the behaviour of their elected legislators Collectively these chapters help to advance comparative studies of elections and representation by inserting party institutions and party agency more firmly into the centre of such studies Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The series is edited by Emilie van Haute Professor of Political Science Universit libre de Bruxelles Ferdinand M ller Rommel Director of the Center for the Study of Democracy Leuphana University and Susan Scarrow Chair of the Department of Political Science University of Houston

Party Vibrancy and Democracy in Latin America Fernando Rosenblatt, 2018 In *Party Vibrancy and Democracy in Latin America* Fernando Rosenblatt sheds new light on why some parties remain lively organizations that generate intense attachment over time He concentrates on party performance in three of the region s more stable countries Chile Costa Rica and Uruguay because they are regarded as consolidated democracies with records of good governance Even in some of these countries he shows party instability is a problem

Media and Politics in New Democracies Jan Zielonka, 2015 How is power being mediated in new democracies Can media function independently in the unstable and polarised political environment experienced after the fall of autocracy Do major shifts in economic and ownership structures help or hinder the quality of the media How much can new media laws alter old journalistic habits and political cultures And how do new technologies impact the media and democracy This book examines these questions drawing on a vast set of data assembled by a large international project

Party Patronage and Party Government in European Democracies Petr Kopecký, Peter Mair, Maria Spirova, 2012-07-26 *Party Patronage and Party Government in European Democracies* brings together insights from the worlds of party politics and public administration in order to analyze the role of political parties in public appointments across contemporary Europe Based on an extensive new data gathered through expert interviews in fifteen European countries this book offers the first systematic comparative assessment of the scale of party patronage and its role in sustaining modern party governments Among the key findings are

First patronage appointments tend to be increasingly dominated by the party in public office rather than being used or controlled by the party organization outside parliament Second rather than using appointments as rewards as used to be the case in more clientelistic systems in the past parties are now more likely to emphasize appointments that can help them to manage the infrastructure of government and the state In this way patronage becomes an organizational rather than an electoral resource Third patronage appointments are increasingly sourced from channels outside of the party thus helping to make parties look increasingly like network organizations primarily constituted by their leaders and their personal and political hinterlands Comparative Politics is a series for students teachers and researchers of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.essex.ac.uk/ecpr The Comparative Politics series is edited by Professor David M Farrell School of Politics and International Relations University College Dublin Kenneth Carty Professor of Political Science University of British Columbia and Professor Dirk Berg Schlosser Institute of Political Science Philipps University Marburg
