Passionately Human, No Less Divine Wallace D. Best, 2005 Wallace D Best examines the various ways black southerners transformed African American religion in Chicago during their Great Migration northward **Christianity in the Twentieth Century** Brian Stanley, 2018 This book charts the transformation of one of the world's great religions during an age marked by world wars genocide nationalism decolonization and powerful ideological currents many of them hostile to Christianity Amazon.com **For the Freedom of Her Race** Lisa G. Materson, 2009-03-15 Grounded in the rich history of Chicago politics For the Freedom of Her Race tells a wide ranging story about black women's involvement in southern midwestern and national politics Examining the oppressive decades between the end of Reconstruction in 1877 and the election of Franklin Delano Roosevelt in 1932 a period that is often described as the nadir of black life in America Lisa Materson shows that as African American women migrated beyond the reach of southern white supremacists they became active voters canvassers suffragists campaigners and lobbyists mobilizing to gain a voice in national party politics and elect representatives who would push for the enforcement of the Reconstruction Amendments in the South **The Rise of Chicago's Black Metropolis, 1920-1929** Christopher Robert Reed, 2011-04-15 During the Roaring 20s African Americans rapidly transformed their Chicago into a black metropolis In this book Christopher Robert Reed describes the rise of African Americans in Chicago's political economy bringing to life the fleeting vibrancy of this dynamic period of racial consciousness and solidarity Reed shows how African Americans rapidly transformed Chicago and achieved political and economic recognition by building on the massive population growth after the Great Migration from the South the entry of a significant working class into the city's industrial work force and the proliferation of black churches Mapping out the labor issues and the struggle for control of black politics and black business Reed offers an unromanticized view of the entrepreneurial efforts of black migrants reassessing previous accounts such as St Clair Drake and Horace R Cayton's 1945 study Black Metropolis Utilizing a wide range of historical data The Rise of Chicago's Black Metropolis 1920-1929 delineates a web of dynamic social forces to shed light on black businesses and the establishment of a black professional class The exquisitely researched volume draws on fictional and nonfictional accounts of the era black community guides mainstream and community newspapers contemporary scholars and activists and personal interviews **Black Fundamentalists** Daniel R. Bare, 2021-05-11 Reveals the history of Black Fundamentalists during the early part of the twentieth century As the modernist fundamentalist controversy came to a head in the early twentieth century an image of the fighting fundamentalist was imprinted on the American cultural consciousness To this day the word fundamentalist often conjures the image of a fire breathing preacher strident unyielding in conviction and almost always white But did this major religious perspective really stop cold in its tracks at the color line Black Fundamentalists challenges the idea that fundamentalism was an exclusively white phenomenon The volume uncovers voices from the Black community that embraced the doctrinal tenets of the

movement and in many cases explicitly self identified as fundamentalists Fundamentalists of the early twentieth century felt the pressing need to defend the fundamental doctrines of their conservative Christian faith doctrines like biblical inerrancy the divinity of Christ and the virgin birth against what they saw as the predations of modernists who represented a threat to true Christianity Such concerns attitudes and arguments emerged among Black Christians as well as white even as the oppressive hand of Jim Crow excluded African Americans from the most prominent white controlled fundamentalist institutions and social crusades rendering them largely invisible to scholars examining such movements Black fundamentalists aligned closely with their white counterparts on the theological particulars of the fundamentals Yet they often applied their conservative theology in more progressive racially contextualized ways While white fundamentalists were focused on battling the teaching of evolution Black fundamentalists were tying their conservative faith to advocacy for reforms in public education voting rights and the overturning of legal bans on intermarriage Beyond the narrow confines of the fundamentalist movement Daniel R Bare shows how these historical dynamics illuminate larger themes still applicable today about how racial context influences religious expression *City of Black Souls* Kai Parker, 2025-05-20 How Black Protestants in Chicago created Ethiopianism a transnational religious movement against Western imperialism City of Black Souls uncovers the history of how from the late nineteenth to the mid twentieth century Black Protestants in Chicago created a transnational religious movement that connected the Black struggle for freedom in the United States to the global Black fight against Western imperialism This was a movement of Ethiopianism meaning a movement for Black religious and political independence inspired by biblical references to Ethiopia particularly Psalm 68 31 Princes shall come out of Egypt Ethiopia shall soon stretch out her hands unto God Through Ethiopianism Kai Parker argues Black Chicago Protestants drew from Coptic and Ethiopian Orthodox Christian traditions and worked with West African Christians to imagine that Afrodiasporic Christian faith heralded the apocalyptic end of imperialism and white supremacy Parker illuminates the apocalyptic Ethiopianism of famous Black Chicagoans such as Ida B Wells and gospel musician Thomas Dorsey and of lesser known ones such as painter William Edouard Scott and Nigerian immigrant turned anticolonial missionary Samuel Wadiei Martin When John C Robinson a Black Chicagoan led Haile Selassie s air force against Mussolini s invasion of Ethiopia in 1935 1936 this was no coincidence but rather an outgrowth of decades of Ethiopianism in Chicago City of Black Souls shows that Ethiopianism was a dynamic heterogeneous and modern movement through which Black migrants to Chicago engaged the industrial city and influenced the mid twentieth century anticolonial and civil rights movements The book is especially important to Black religious and political studies in its demonstration of how apocalyptic Ethiopianism differed in its contributions to the Black freedom struggle from the canonical prophetic religion grounded in the Exodus notion of moving from slavery to freedom *The Journal of African American History*, 2002 **Chicago's New Negroes** Davarian L.
