Foul Play Robert Paul Szekely, 2002-09 Foul Play is divided into three parts The first third deals with suspense mystery a death defying illness and a touching soon to be aborted love affair All the characters in the story have auto related names which continues my trademark from my first book Murder By Proxy where all the characters were named after intoxicating beverages The middle of the story tells us how the H W B SOCIETY deals with the pain and suffering of the people who have been accidentally hit with a batted ball or an errant bat flying from a player s hands during major league ballgames Sounds serious Yes it has its moments but the chapters are also liberally sprinkled with my own special bend of sly humor Can you imagine Amy Lamborghini a tall sexy beauty with a bat in her hands Numerous conflicts arise in last part of the book ending with unexpected resolutions and a heart warming finale that is sure to bring tears to your eyes **Big Cat** Jerry Grillo, 2024-04 Biography of Baseball Hall of Famer Johnny Mize who grew up in a broken home in the mountains of northeast Georgia and played fifteen Major League seasons with the Cardinals Yankees and New York Giants winning five World Series titles with the Yankees and being elected to the Baseball Hall of Fame in 1981 **A Talk in the Park** Curt Smith, 2011-07 In the largest collection of Voices in any sports book A Talk in the Park features the favorite stories of baseballs most famous and beloved announcers in their own words **Educational Film/video Locator of the Consortium of University Film Centers and R.R. Reid, 2025-05-06 Ethics to put it concisely is mindful well being It is a set of standards that guides how we treat ourselves one another and the environment When we design things for public use we also communicate an ethical perspective When we use things designed for us we adopt their ethics This book synthesizes several different disciplines as they relate to design ethics and the built environment Our objects according to philosophers like Ihde Verbeek and Latour mediate our experiences with the world around us Through their designs and by extension our perceived affordances we largely comply with what our objects and spaces want us to do At the micro level the phones in our pockets command our attentive processes in order to feed an attention economy At the macro level urban

planning and infrastructure can both promote inclusivity and foment violence We are deeply intertwined with the objects and spaces that have been designed for us Baked into every object process system and environment are the remnants of the designer s morals ethics values and biases Importantly this book seeks to cultivate mindfulness of the reader s interactions with their surrounding world providing them with a line of inquiry that questions areas of unethical design in their built environment and offers useful critiques and new solutions to these ethical dilemmas We often have the power to reject those things that are irresponsibly designed and unethical in nature and it is through this agency as users that we can demand better from designers developers and companies It is imperative to understand our mediated relationships with the built environment that surrounds us and the objects within it this can help explain our behaviors and empower us to make ethical decisions that serve future generations
