This book trailblazes co evolution approaches which have been prototyped and tried out by the authors with global academic and practitioner backgrounds. It was devised to help humanity people perceived as complex adaptive systems to self organize co create and manage complexity by showcasing with own example as individuals and open networks. The book bundles main components needed for facilitation in complexity while each chapter covers conceptual solutions for specific complexity strategies, tactics, operations projects. These solutions serve as blueprints and roadmaps providing approaches for practitioners and researchers alike. The main features incorporated in all the approaches are transcending silos and organizational hierarchies toward a borderless collaboration between diverse stakeholders with dynamic roles and accountabilities regarding purposes, missions and solutions. The book includes suggestions for strategic, tactical and operational managerial and governance approaches for disruptive short term innovative open large scale engagements where rapid onboarding, situational awareness, innovation and innovation in context and action are expected while fast facilitation, dynamic reconfiguration and self organization are required. It also describes how long term sustained co creative action needs to be facilitated to adapt to external and internal complexity dynamics while initiating positive change. This book showcases how co creation and co dreaming emerge with co evolution.
