**Video Game Art Reader** Tiffany Funk, 2022-07-11 This volume of VGAR critically analyzes video game art as a means of survival Though survival strategy exists as a defined gaming genre all video games as unique participatory artworks model both individual and collaborative means of survival through play Video games offer opportunities to navigate both historical and fictional conflicts traverse landscapes devastated by climate change or nuclear holocaust and manage the limited resources of individuals or even whole civilizations on earth and beyond They offer players a dizzying array of dystopian scenarios in which to build and invent cooperate with others through other players NPCs or AI to survive another day Contributors show how video games focus attention hone visuospatial skills and shape cognitive control and physical reflexes and thus have the power to participate in the larger context of radical activist artworks that challenge destructive hegemonic structures as methods of human conditioning coping and creating Emerging Genres Joshua Call, Betsy Brey, Gerald A. Voorhees, Matthew Wysocki, 2026-01-08 This collection explores digital games through the lens of genre analysis to establish where games are currently and establish new ground in Game Studies for the future **The Film of the Islamic State** Yorck Beese, 2024-05-27 The film of the so called Islamic State is part of the still relatively opaque history of radical Sunni Islamist video propaganda a field in which it is simultaneously its strongest exponent Through its imports of aesthetics in the age of digitalization and the concurrent de professionalization of film this violent propaganda film has interestingly drawn attention for its seeming likeness to Hollywood film an odd comparison that the Islamic State itself opposes through its own filmic antagonisms to commercial cinema In an intermittent attempt at attacking cinematic illusionism it has made increasing use of cinematic devices in order to communicate its violent and anti humanist ideology and has thereby entered a state of filmic self contradiction This book analyzes and uncovers the mechanisms and dynamics of ideological communication in the Islamic State s videos through a combined historical and neoformalist approach making them predictable for future researchers **Entertainment Computing - ICEC 2024** Pablo Figueroa, Angelo Di Iorio, Daniel Guzman del Rio, Esteban Walter Gonzalez Clua, Luis Cuevas Rodriguez, 2024-11-25 This book constitutes the refereed proceedings of the 23rd International Conference on Entertainment Computing IFIP ICEC 2024 which was held in Manaus Brazil during September 30 October 3 2024 The 13 full papers 8 short papers and 17 papers of other types presented in this volume were carefully reviewed and selected from 60 submissions The works collected in this volume discuss latest findings in the areas of Game Experience Player Engagement and Analysis Serious Gameplay Entertainment Methods and Tools Extended Reality and Game Design The Official Xbox Magazine , 2009 **HWM** , 2005-12 Singapore s leading tech magazine gives its readers the power to decide with its informative articles and in depth reviews USA Today , 2007-07 **Zombie Futures in Literature, Media and Culture** Simon Bacon, 2024-10-31 An innovative investigation into how zombie narratives over the past ten years have been specifically leading up to a unique intersection with the world as it exists in the 2020s this book

posits the undead as a vehicle to communicate humanity's pathway into and out of the ideological health and environmental pandemics of our time Exploring depictions of zombies across literature poetry comics television film and video games Simon Bacon brings together this timely intervention into how zombies enable speculation about future modes of being in a changing world and represent the fluid notion of old and new normals With each chapter moving beyond traditional readings of the undead *Zombie Futures* situates the zombie as an evolving cultural imaginary at the centre of discourses around how human cognition and embodiment are effected by global realities such as consumerism new technologies climate change and planetary degeneration Structured around contagious partisan ideologies ecological sickness mental health crisis and the very literal COVID 19 virus this book establishes how the zombie figure might manifest post human and post normative futures Works featured include graphic novels and comics like *The West Zombies Crossed* and *Endzeit* the South Korean series and films *Kingdom* *Train to Busan* and *Peninsula* The *Last of Us* and the *Resident Evil* game franchises Bollywood horror anthology *Ghost Stories* Joss Whedon's *Serenity* *Cargo* and literature such as *The Girl with All the Gifts* the fiction of Stephen Graham Jones and Ryan Mecum's *Zombie Haiku* In a time when popular culture and scholarship has been overrun with the undead this original study offers a refreshing look at the zombie and what it can tell us about about our world going into and emerging from global catastrophe
