ICEEM2011 is one of the most important conferences in the field of Engineering Education and Management and is co-organized by Guangzhou University, The University of New South Wales, Zhejiang University, and Xi'an Jiaotong University. The conference aims to provide a high-level international forum for scientists, engineers, and students to present their new advances and research results in the field of Engineering Education and Management. This volume comprises 122 papers selected from over 400 papers originally submitted by universities and industrial concerns all over the world. The papers specifically cover the topics of Management Science and Engineering, Engineering Education and Training, Project Engineering, Management, and Other related topics. All of the papers were peer-reviewed by selected experts. The papers have been selected for this volume because of their quality and their relevancy to the topic. This volume will provide readers with a broad overview of the latest advances in the field of Engineering Education and Management. It will also constitute a valuable reference work for researchers in the fields of Engineering Education and Management.

Amplified Quality Engineering Wouter Ruigrok, Jeroen Egelmeers, Rik Marselis, 2025-09-25 In this book we explore how GenAI including Agentic AI impacts quality engineering not just as a tool to amplify development and testing but also as a source of new risks and responsibilities. We also explore how quality engineering impacts the use of GenAI including Agentic AI for example consciously considering whether an AI-based system is the right solution. We share what we've learned, what we're still learning, and what we believe is needed to use GenAI including Agentic AI both effectively and responsibly.
